## ROGERS WARNS FARMERS TO GET IN RIGHT HUMOR

(Special To The News)  
It looks like the rebels in Mexico ought to win a few battles in the press. They pass through all the towns first, and get the first crack at the telegraph offices.

Steamship Paris stuck in the mud. Somebody happened to think of opening the bar, and in 30 hours the passengers had it light enough to float.

## PA NEW OBSERVES

Over the week-end, there was much bliss for the motorist and this Pa New wished that he might have that extra penny on all the gallons of gas. Anyhow, there were lines of cars on every road in the country.

To the eye, the high water is on a big slump this morning. In a glance at the Shenango and Mahoning rivers, one notices that they have gone back to near normal.

The department toured about the country roads yesterday, and almost expected to see a straw hat in evidence, but such was not the case. However, young middle-aged and old folks were going hatless in the heat.

Heard a man say yesterday that he had not bought his automobile license as yet because he did not have the money to run his car without going in debt. That man should be placed in the cartoon "Uncrowned kings", featured daily in The News.

In some places, the heavy storm killed the mud. Other parts were not so good. One of the local plane landing fields is packed down as tight as a rock since the recent storm. Prior to this, the owner told Pa New, that the field had been in a muddy condition.

Thermometers in New Castle got up to near 90 on Sunday, probably breaking all April weather records for a century more or less. At least, none of the old timers hereabouts can recall any weather in early April like that experienced Sunday.

Warm weather brought out an immense crowd of shoppers on Saturday night. Likewise it brought an immense crowd of motorists. Traffic was dense in the downtown section Saturday night.

The first straw hat of the season appeared Saturday afternoon with the midsummer temperature. It was noted in the Washington street crowd.

If one has a desire to tour the countryside and see the scenery, now is the time. The terrific wind storm of last week laid low most of all the billboards along the roads.

There are some bad holes in Euclid avenue, caused by the rain storm of Friday morning. The section that is badly in need of attention is just outside the city limits.

Some work has been done on the road from Edinburg towards Hillsville that is to be paved this year. The long turns being eliminated and the road cutting across the fields. Grading work has been done in a

General Calles Takes Personal Command Of Federal Forces In Sinaloa

### REBELS STAGING HURRIED RETREAT

Campaign Now Centered To Bring Destruction To Religious Uprisers

(International News Service)  
Feeling that the backbone of the revolution in Chihuahua has been broken, Gen. Plutarco Calles, secretary of war and commander in chief of all the federal armies today took personal command of the campaigns in the Central states against the religious insurgents and in Sinaloa against Gen. Manzo's rebel forces.

Gen. Calles has established his headquarters at Aguas-Calientes planning to send 10,000 troops against the religious rebels ("Cristeros") in the Central states.

After this campaign has gotten underway, he reported that he planned to proceed to the west coast to supervise the campaign of the federal army sweeping up Sinaloa in pursuit of the rebels retreating into Sonora.

## E. D. Canavan Drowns Sunday

Body Is Found In Small Lake At Cement Dam On East Side

### BELIEVE HE STUMBLER AND FELL INTO WATER

Edward D. Canavan, aged 55, of 937 Winslow avenue, well known in business circles of this city, was drowned Sunday afternoon in the waters of the cement dam, near the plant of the National Radiator Company, east of this city.

It is believed that he stumbled and fell into the body of water, near the dam. No person saw him fall into the water and the exact manner in which he met his death will never be known.

Discover Body  
Shortly after three o'clock Sunday afternoon, some boys who were swimming in the vicinity discovered the body and sent a call to the police station for assistance and the pulmotor. In the meantime, the boys had pulled the body to the land.

On their arrival there, Detective C. G. Logan and Officer Charles Longstreth worked the pulmotor on the stricken man for some time but without success. A doctor was called and pronounced Mr. Canavan dead. The body was removed to the funeral home of Peter Caputo and prepared for burial by direction of a son, who had been called to the scene. Coroner J. P. Caldwell issued a certificate of accidental drowning.

In Business Here  
Mr. Canavan was widely known throughout the city, having been with the Cashbushers Mercantile Company for many years previous to engaging in business for himself on the South Side. In recent years, he had still been engaged in the business for other concerns.

He was a member of St. Mary's church, the Knights of Columbus, Loyal Circle No. 113 Protected Home Circle of Pittsburgh, and Butler Camp of the Modern Woodmen.

He was born in Oil City, Pa., the son of William and Sarah Rooney Canavan. He was a resident of that city for many years.

He is survived by his wife, Mrs. Katie Canavan and the following children, Edward J., Harold and Alice Canavan, also two sisters, Mrs. John Jefferson, of Buffalo, N. Y., and Miss Kate Canavan of Oil City and two brothers, William and Fred Canavan of Pittsburgh.

Funeral services will be held Wednesday morning at St. Mary's church. Interment will be made in St. Mary's cemetery.

Governor Unperturbed By Incident; Increase Guard At State Mansion

(International News Service)  
ALBANY, N. Y., April 8.—Governor Franklin D. Roosevelt went about his daily task at the capitol today little concerned over the finding of a dynamite bomb in the New York City postoffice addressed to him at the executive mansion.

"I am awfully glad that nobody got hurt," the governor said. "We haven't had anything like that since the navy days."

Roosevelt was assistant secretary of the navy under the late President Woodrow Wilson during the World War. It is understood that while he held the navy post an attempt to send him a bomb was foiled by secret service agents.

Threatening Letters  
Several threatening letters have been received by the governor since he took over the reins of the state government on January 1.

He paid little attention to them, however, and had them placed in the so-called "crank" file in the executive chamber at the capitol.

Although the discovery of the bomb failed to rattle the governor, Mrs. Roosevelt has been alarmed considerably by the incident. It is understood she has suggested police protection in the future when the governor is at their New York City home or their country home at Hyde Park.

A state trooper is on guard at the executive mansion at night and it is expected an additional trooper will be assigned to the mansion through the day in the future.

## Haws Measure Up For Action By Legislators

Compulsory Automobile Insurance Bill Before State Solons Tonight

### FAILURE TO COMPLY WOULD DRAW FINE

Voting Machine Measure Is Also Important Issue Up For Passage This Week

By C. B. YORKE.

(International News Service Staff)  
HARRISBURG, April 8.—The House of representatives will have the Haws compulsory automobile insurance bill before it on special order of business tonight.

The bill would require all persons owning automobiles to produce automobile insurance to the amount of \$5,000 in case of accident resulting in death or \$10,000 where two or more deaths are involved, in addition to \$1,000 property damage insurance. Owners would be permitted to produce bonds or certificates covering the amounts or they could give sworn statements to the secretary of highways showing that they are financially able to meet the requirements of the bill.

Persons guilty of violating the provisions of the Haws bill would make themselves liable to the fine of \$1,000 or imprisonment not exceeding 90 days.

Short Skirmish Reported On Border Line As Mexicans Open Fire On Guards

### AMERICAN TROOPER REPORTED WOUNDED

Commanding Officer Asked For Detailed Report On Recent Outbreak

(International News Service)  
WASHINGTON, April 8.—An official report from Maj. Gen. William Lassiter, commanding the eighth corps which includes the Mexican border, received here today, failed to identify the Mexican troops which clashed with troopers of the Tenth Cavalry at Naco, Arizona, early Saturday morning, resulting in the wounding of one American soldier.

"About three o'clock," Lassiter reported, "one of Major Haeletine's cavalry patrols found 15 sacks along the railroad right-of-way and a few yards from the boundary fence one and one-half miles east of Naco. Each sack contained five small bombs. In a few minutes a party of Mexicans approached and upon being challenged replied in Spanish and then opened fire, wounding Private Finze, Troop E, Tenth Cavalry, degree not yet determined. Our cavalry detachment returned the fire and the Mexicans fled."

News dispatches had indicated that the Mexicans were federal forces who occupied Naco, Sonora, and the department had expected Lassiter to clear this point up. The bombs which were "dropped" on three occasions last week were from rebel planes.

## Pay Tribute To Lodge Deceased

Annual Memorial Service Is Conducted By L. O. O. M.

### PITTSBURGH MAN MAKES ADDRESS

Several hundred members of the Loyal Order of Moose and their families and friends gathered last evening at the auditorium of the Cathedral and participated in the annual memorial services of New Castle lodge No. 31, L. O. O. M., which proved to be one of the most impressive of the many services of this kind that have been held here.

The speaker of the evening was Edward A. Schofield, business man of Pittsburgh, who delivered a wonderful word picture of what the lives of those whose memory was honored last night, mean to those now living and who will live in the time to come.

He said that it was his purpose to deliver a message of happiness, even though it was in the midst of an occasion designed to express the sorrow of those participating.

Death, he said, was but the natural course of events of every person's life and that after all, the principal problem of life was to gain what joy was possible in a better understanding of the lives of those who lived before, that our lives might be better.

Musical Features  
The program as previously announced was opened with a selection by the Moose orchestra, with Mr. Fred S. Emery as the director. The orchestra rendered a number of selections during the evening all proved pleasing to the audience.

The solos of Mrs. W. P. Felch and Mrs. Alfred H. Mellor were excellent and added much to the occasion, while the duet number of Messrs. George Anthony and Harry Evans, as well as the selection by the Moose quartet consisting of Messrs. George Anthony, W. D. Williams, Jr., Arthur Thomas and Harry Evans were of an exceptionally high order and in keeping with the occasion. Miss Jessie Mockett as accompanist and also in a piano solo number proved her ability in such a program.

The fire was brought under control after causing considerable damage.

## French Student Suicide Victim

Unrequited Love For Co-Ed Ends In Suicide For Son Of French Government Official

### ENDS LIFE BY DRINKING POISON

(International News Service)  
EVANSTON, Ill., April 8.—Unrequited love for a beautiful Northwestern University co-ed was seen today as the motive for the suicide of timor Teande De Coston, 27, a graduate of Sorbonne Academy in Paris and son of an official of the French government.

Coston drank poison on the lake shore of Northwestern's campus on Saturday and was not identified until late yesterday. The girl who could not return his love is Miss Margaret Walker, 19, a sophomore at the College of Liberal Arts.

"Last Tuesday I saw him for the last time," explained Miss Walker. "I told him I could not love him he said 'adieu'."

"Later he called me on the telephone and said he was going to commit suicide. I tried to dissuade him. I don't feel that his act was ignoble or cowardly, because there was nothing left for him if he could not achieve the aims he sought."

In his trunk was found a \$5,000 life insurance policy which named Miss Walker as the beneficiary.

## Ten Are Killed In Auto Crashes

Ten Are Dead, Thirty-Four Injured As Result Of Accidents Over Week-End

### SUNDAY MOTORING FAVORED BY WEATHER

(International News Service)  
Deaths in the state attributed to automobile accidents during the week-end totaled ten, approximately the average of fatalities credited in that column since the advent of the motoring season this year.

There were 34 persons injured. International News Service's weekly check revealed.

No deaths were reported in Philadelphia over the past week-end and but one fatal accident in the Pittsburgh district, an unusual event in both of Pennsylvania's metropolitan centers.

Only a slight number of those injured were reported in a critical condition today.

Uniontown—One man killed, woman hurt.

Tyrone—Two killed, one hurt.

Pittsburgh—One dead, 15 hurt.

Scranton—Two killed, four hurt in series of crashes.

Harrisburg—One killed, six hurt.

Sunbury—One killed, three injured.

Wilkes-Barre—Man and woman killed and four others injured.

Premature Heat Wave To Be Broken Tonight, Says Weather Forecaster

### SHOWERS TONIGHT AND TOMORROW

(International News Service)  
Western Pennsylvania is to experience another cool weather period, beginning very probably tonight.

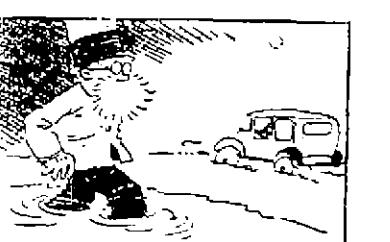

While practically the entire state sweltered in a premature heat wave over the week-end, clouds, showers and low temperatures were predicted today by W. S. Brotzman, the official weather forecaster for western Pennsylvania.

High Temperatures  
Temperatures in the high seventies and low eighties were reported throughout the western section of the state yesterday. A new temperature record for April 7 was set in Pittsburgh when the mercury rose to 83 degrees. The previous high mark was set April 7, 1921, at 80 degrees.

The lowered temperatures will follow in the wake of showers coming out of the west, according to Brotzman. He reported temperatures at 8 a. m. today west of Pennsylvania as follows: Columbus, O., 58; Fort Wayne, Ind., 54; Chicago, 46 and below 40 in practically all sections west of Chicago.

Showers are predicted to begin late this afternoon and continued throughout the night. The mercury will be between 40 and 45 degrees by Tuesday morning, Brotzman said.

But the spring is here and the salesman chap, is around again with a brand new spiel, with a car that is tuned to the finest pitch, with a handsome gadget on every wheel. ## Sewer Complaints Are Discussed

Council Considers Remedy  
In Number Of Districts  
Of City

### DELAY ACTION ON EUCILD SEWER PLAN

CITY Engineer Frank Miller today presented to council assembled in city hall a set of plans and specifications for a storm water sewer extension between Sheridan and Euclid avenues but the plans were not immediately approved. Instead the approval was delayed until City Solicitor Robert White has an opportunity to secure a right of way through properties to be traversed by the proposed storm sewer.

It is intended by council that the storm sewer alleviate the alleged intolerable condition in that section, it having been alleged not once, but numerous times that following each storm, sanitary sewer water backs through pipes into cellars.

Recently council ordered Solicitor White to prepare a resolution compelling persons to open natural water courses. The resolution was passed and White declared he had not obtained the rights of way owing to the situation there.

In connection with the Euclid avenue situation, Attorney Clarence Patterson of Patterson & Gilliland, attorneys, representing Mrs. Rachael Taylor, Albert street and Sheridan avenue, said the firm had been retained to secure a remedy for the situation there.

Patterson said that during the paving of Albert street the sewer had been broken. Mrs. Taylor has three children and when water flows into her cellar the health of the entire household is endangered, according to the attorney.

Councilman Reeves said that employees of the street department had tested the sewer there and declared it had not been broken. He charged that water from a sewer that Mr. Gilliland had built backs into the sewer, flooding the cellar.

The state health department of the situation to which Solicitor White stated: "In such an event the state will come here and tell the property owners to open the drains which are constructed through their yards."

The Miller estate at State and Sampson streets also was damaged during the big storm and Harry Steen, West North street, complained of residences being flooded with water.

Councilman Tyler said the councilmen should visit the Kilkenny district.

number of places but no actual concrete work has yet been started.

Noted a North Hill man out with a lawn mower this morning. Believe he is the first to start the popular pastime. It will not be long until many will have to follow his example the way the grass is shooting up.

Leaves are shooting out on all kinds of trees and many a sage has remarked: "It's all right if there doesn't come a frost or a freeze."

The April sun is hot enough to give you a real case of Sunburn, Pa. News can testify.

Church services in early April with windows and doors of the churches open like mild summer, is almost unprecedented here but that is the condition that existed here yesterday.

With both tin mills and the steel plant working one hundred per cent there will be quite a noticeable increase in business conditions in this city.

It doesn't seem to make any difference how often or how much it rains in a few hours the wind and sun have dried the streets up and then the dust begins to raise.

The week of April 14-20 has been designated as Clean-up week in Pennsylvania. Lots of New Castle citizens have already cleaned up their premises but for those that haven't their attention is called to the state-wide observance. State Fire Marshall Morgan urges every citizen to remove all fire hazards about their premises, which is not a bad idea.

The warm weather of the past week has brought the early fruit trees into bloom. Early peaches, cherries and plums are out in all their glory.

Sunday was a fine day for motoring and the roads surrounding New Castle were clogged with traffic yesterday. It was nice to be out in the country to the fresh green of the foliage and grass adding to the splendor of the scenery.

Rivers have gotten back to normalcy during the past two days, although the Shenango is still a little high.

Evidences of last week's storm showed quite extensive damage had

been done. About half the billboards along the roads in every direction from New Castle have been blown down, while damage was done to the highways in many places by the rainfall.

According to the Pittsburgh weather bureau Saturday was the warmest April 8th that has been experienced since 1879. Saturday was warm enough to suit the fancy of those warm-blooded citizens who were clamoring for heat when the temperature got down to zero last winter.

School children of the South Side have a sort of a sport to take care of before attending school. This morning as Young Pa News was passing Big Run creek he saw three or four kids fishing at an early hour. Energetic lads!

Pa News believes that the non-stables in Neshannock township should report to the county court; the fact that Hadcroft avenue from the city line to Wilmington avenue is not kept in passable shape much of the time. This is an important thoroughfare and it should be kept in passable condition. There are a number of sink holes in the road at the present time that make it almost impossible to traverse it. The formation of this highway makes it hard to travel most of the year. It should be asked or staged. The road is not a long stretch and could be kept in good shape at small expense.

Rosa Penselle who has sung here on a number of occasions is not inclined to sing for the tiddies. She says they have not as yet reached a stage where the fine art of music can be reproduced.

New Castle's area appears in the monthly map of the Magazine of Business as one of the areas of the nation where business is good.

Several workmen were busy this morning, cutting the grass around The Cathedral. It has been a good many years since Pa News can remember anyone mowing the lawn the first week in April.

Yesterday a party of bathers was observed swimming in Slippery Rock creek at the beach below town there. They seemed to be enjoying themselves, too, although we have an idea the water was a little bit cool.

## Supreme Court Sessions Are Resumed Today

Important Matters Before Supreme Court In Reconvening Session Today

### BUSINESS WORLD IS INTERESTED

(International News Service)

WASHINGTON, April 8.—Eyes of the business world were turned on the supreme court today as it reconvened after a month's recess to hand down decisions.

The O'Fallen railroad valuation case, the so-called "fifteen billion dollar lawsuit," and the New York seven-cent fare case are among the 50 important cases upon which decisions are awaited.

Speculators in railroad stocks have been nervous ever since the high court took the O'Fallen case under advisement a few months ago, while New York City traction stocks have risen and fallen upon reports of the probable decision of the court in the fare case.

A complete victory for the government's method of valuing railroads under the transportation act of 1920 involved in the O'Fallen case would, it is estimated, deprive the railroads of a claim valuation of more than \$15,000,000,000 and ultimately annual revenues of more than \$2,000,000,000.

Upholding of a seven-cent fare for New York's subway and elevated riders would put an additional \$23,472,625 in the coffers of the Interborough Rapid Transit Company annually, according to the city's contention.

Other cases awaiting decision included an interpretation of the Lever wartime act, under which coal prices were fixed by the government; the fight of the "White" Shrine to bar the "Colored" Shrine from alleged appropriation of its name; legality of the Presidential "pocket veto," an interpretation of the right of aliens living in Canada to enter the United States daily for work; and the appeal of Harry P. Sinclair, oil magnate, from a 90-day jail sentence imposed for refusal to answer questions of the Senate public lands committee.

### Truck Nose-Dives Off Of Highway

Right Front Wheel Breaks And Truck Has Not Yet Been Moved

While journeying over the Youngstown-New Castle highway at a point near Scotland, Pa., a large motor car crashed into the embankment and according to state highway patrolmen has not yet been removed. The accident was caused when the right front wheel broke. The radiator of the truck was imbedded two feet in the earth. The operator escaped injury. The truck is owned by a Johnstown firm and was operating toward Youngstown.

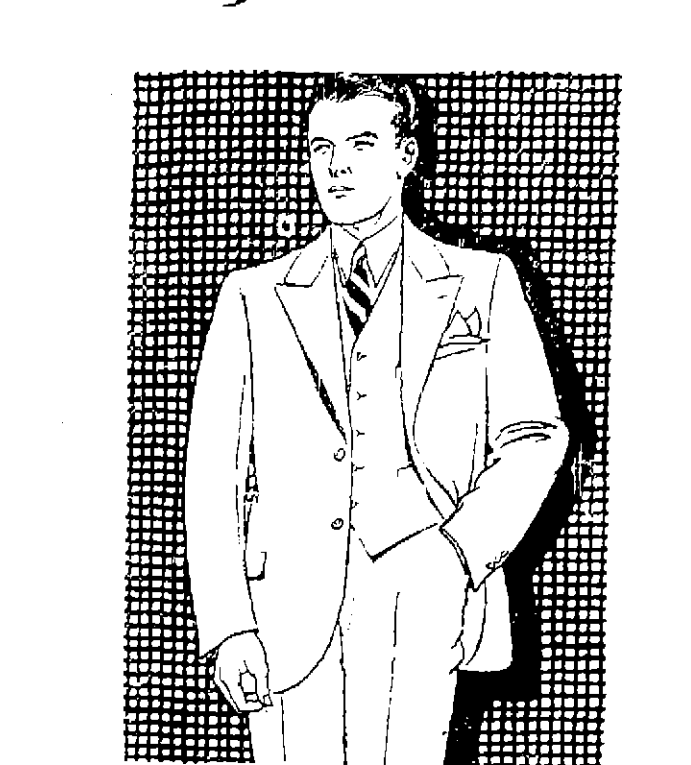

### Large Congregation Hears St. Mary's Choir

At the 11 o'clock mass held Sunday at St. Mary's church, there was a congregation present that filled the church. The feature of the service was the rendition for the second time of the special Easter music so successfully rendered by the junior and senior choirs of the church on Easter Sunday. The rendition of the mass on this occasion was even better than on Easter Sunday and the large congregation of worshippers were delighted. The choir was assisted by Stephen Gullinski at the organ and an orchestra of seven pieces.

Rev. Fr. J. Dudley Nee delivered the sermon of the occasion and this also proved of interest to all present. The choir of the church have now established a reputation that is second to none in the diocese of Pittsburgh.

### EASTER CANTATA HEARD BY CROWD

The Easter Cantata "The Redemption Song" was presented Sunday evening by the choir of the Emmanuel Baptist church in that church before a congregation that filled the church and proved of unusual delight to all those in attendance. The solo and choral parts were rendered with a charm and in a manner that indicated great preparation. William Richards, the conductor, received many compliments on the manner in which the cantata was presented. Miss Nana Jenkins as organist and

accompanist added much to the success of the occasion.

Rev. Floyd M. Childs, new pastor of the church, presided during the evening and brought a delightful evening of song to a close by pronouncing the benediction. It was one of the most successful of such events held in the Emmanuel Baptist church in some time.

## Correctness In Rings

In these "modern" times, and "ensemble" in dress, every element is essential. Discriminating women are exacting in each detail and the rings are most important. The Orange Blossom is America's most modish design for betrothal rings and the Traub process, featured here, renews your old-fashioned rings into this most significant, pleasing new style. Your old rings are not injured in any way. The prices are very moderate.

## COMMON SENSE NEEDED

AGITATION for a standardized code of signals for automobile drivers still continues. The plan is to be recommended, surely. If anything needs standardization that has not already been reduced to that common plane, it is signals of automobile drivers. No two drivers employ the same signals.

But such a code of signals, however practical and standardized, cannot take the place of common sense, which every driver was supposed to have been endowed with at the beginning of his earthly career.

Laws, regulations, codes, edicts can never compel an individual to do that which common sense should teach him to do, but doesn't. A standardized code of automobile signals will not be hard to adopt; it will never be used by 90 per cent of automobile drivers.

## CONTINUING GREAT WORK

THE Gorgas Laboratory of Tropical Research, which was dedicated a few days ago in Panama City, perpetuates not only the name but the work of General William Crawford Gorgas, the famous army sanitary engineer. It is such a memorial as he himself would have wished, not because it would honor him but because it would continue the great work he was unable to complete in one short life.

In the establishment and maintenance of this institution the three American continents are working hand in hand for their common welfare. The site and permanent laboratory building are the gift of the republic of Panama. It will be maintained by the United States and Central and South American nations. Thus will it contribute to Pan-American unity as well as to immunity from disease and to economic advantage.

General Gorgas brought honor to the United States army. He did much to conquer the Panamanian jungles and to make them habitable for white man. He contributed much to the world's knowledge of tropical diseases and their prevention and remedy. His notable career stands as an example of what young physicians can do in the military service of their country in peace time. His example will be a continuing inspiration for the members of the army medical corps.

## ABANDONING THE FEE

THE original advocates of the equalization fee have for the most part recanted; they have yielded to the necessity of the situation. What killed the proposal as a legislative possibility was bluntly put by Senator Norris when he said it would be impossible to muster enough votes to override a certain veto.

Senator Howell's suggestion of a test enactment, applying the fee to one major agricultural product, instead of half a dozen, is probably more a gesture of loyalty to a discredited device than a serious hope of its acceptance.

The only objection to the equalization fee is not, as Senator Howell seems to assume, that its opponents believe it unconstitutional. There are other cogent arguments against the device, former President Coolidge having included in his enumeration the incentive for profiteering and wasteful distribution by middlemen, stimulation of overproduction, government interference in the process of handling crops that would amount to bureaucracy gone mad. Above all, it is rooted in the fallacy of the possibility and desirability of effective government price fixing, in principle as vicious as it would prove cruelly deceptive to farmers' hopes.

Does Senator Howell imagine that President Hoover would be willing to pass the buck to the supreme court with the tacit understanding that the vicious principle would be accepted if by any chance it could pass muster as to its constitutionality? If he does, he is sadly ignorant of the character and attitude of the man.

Women may have the most sense, but it takes a man to marry one.

A politician is a man who can fan a prejudice until it blazes into a cause.

There are worse things than egotism. Even an angel can blow his own horn.

An old-timer is one who can remember when it seemed funny to call two people a family.

Virtue is relative. Most of the people who boast of their self-control haven't much to control.

Another good way to retain your faith in your fellowman is to make him sign on the dotted line.

Proof that the world is growing better lies in the fact that its conscience hurts a lot more.

Thirty minutes of study each day will enable you to talk well on all subjects except those your friends are interested in.

Armies are pretty much alike. In ours, the general's aide is a raincoat holder. In China he opens the Old Man's umbrella.

What's become of the old-fashioned man who by this time was well on his way to coloring a new Christmas meerschau?

On July 1 the paper currency is to be reduced in size, to conform, perhaps, with the reduced purchasing power it has had since the war.

Only 16 Killed.  
Coolidge On Swelled Heads.  
Hurting Hoover's Hand.  
Only Peons.

By ARTHUR G. BRISBANE  
(Copyright, 1929, King Features  
Synd., Inc.)

Assistant Secretary Lowman, of the Treasury Department, says prohibition agents and coast guards have killed 16 persons in 15 months. That would not be bad if prohibition were really enforced. Sixteen or 16,000 lives would be cheap, in exchange for nation-wide temperance.

But Police Commissioner Whalen's statements that New York, which before prohibition had eight or ten thousand saloons, now has 32,000 SPEAKEASIES, makes you wonder whether our kind of enforcement is worth what it costs. The 16 killed do not include those killed by state enforcement agents in the lady in Lincoln, for instance, killed in her home after state agents had broken in.

Calvin Coolidge in an article headed "Why I Did Not Choose to Run," in *Harvard's International Cosmopolitan Magazine* for May, just published, says no president should have more than eight years in the White House.

"No human being of any note," says Mr. Coolidge, "can stand for eight years the constant adulation with which a president is surrounded without getting a swelled head." That depends on the man. Mr. Coolidge did not get a swelled head in his eight years. Other presidents have gotten, and will get, swelled heads in less than eight days.

President Hoover's hand is sore after shaking hands with 1,757 fellow citizens in one day.

WHY SHAKE HANDS? Especially when your fellow citizen, pushing a plow professionally, shows his appreciation with a grip developed by holding the furrow straight among stones.

In France, important men meeting embrace each other. We don't do that. "Why shake hands? Why not invent something else? Rubbing noses, Indian-fashion, would not do; too many germs. Why not simply look the row of 1,757 proud Americans straight in the eyes, and say, "How do you do?"

Mexican national troops shot to death hundreds of rebels penned in railroad cars, bridges burned. You are not to imagine rows of proud Castilians laid out dead, their fine Spanish faces turned to the sky. Ninety-nine per cent of those killed are miserable Indian peons, fighting because they were told to, not knowing why.

They are not so different from many that looked up at the sky in the recent European war.

The Federal Reserve would limit speculation by pressure on banks, discouraging loans for speculation. A good idea. Gambling is bad.

But since the Reserve has no such influence why doesn't it tell the Reserve banks not to practice usury. Instead of charging interest rates of which a pawnbroker would be ashamed?

Senator Borah, head of the Senate Committee on Foreign Affairs, would again demand this country recognize the Russian government. Many European countries have recognized that government.

Is there any reason why Uncle Sam should recognize a government that has been stable and progressive ever since the war? The real reason for not recognizing Russia is the fact that foolish Wall Street boy bankers bought bonds from the czar when he was toppling, and others from comic Kerevsky. They think Russia should pay those bonds. Russia won't.

The Sherman act may not allow oil companies to limit oil output by agreement, for the sake of a great national asset and their own pocket.

But Secretary Wilbur, chosen by President Hoover to run the Department of the Interior, has his own sufficient method of curbing oil waste. He has cancelled 1,223 oil drilling permits and 1,250 holders of other grants on public lands are ordered to show cause why their permits should not be annulled. Mr. Wilbur will prevent draining all the oil out of government lands, and there is comfort in that for oil stock owners.

In the Bible, sins of the fathers are visited upon the children unto the third and fourth generation.

In modern times the sins of children are often visited upon the fathers.

Nathan F. Leopold, father of a notorious young murderer, died Friday. He has been in seclusion since his son's horrible crime, and was the last alive of three unfortunate fathers. The father of Loeb died recently, unquestionably of grief, and Jacob Franks, father of the murdered boy, is also dead.

It is important that the two young murderers be kept in prison until they die. Fortunes left them by their fathers should not be used to buy them out of jail. The risk of letting such creatures breed their kind would be too great.

## Hints and Dints

Sun sets tonight 6:31. Sun rises tomorrow 6:32.

The trouble with so many people is that they are influenced by politics or policy instead of honest to goodness honesty.

A lot of the chaps who worked in the harvest fields of the west and forest lumber camps of the north are now at the hardest work of the year—cheer leaders in the colleges.

There are people right here in New Castle who try to put on more "Dog" than Mr. and Mrs. Hoover do. Mrs. Hoover is now even driving her own car—something some local high brows cannot do.

LISSIE ON A DIET  
In a long glistening Rolls-Royce he gilded up to the filling station, and called out, "Let's have some gas please!"

"How much you want?" asked the man in overalls, eyeing the car admiringly. The motorist struck by a sudden thought, put a hand in his pocket. Thirty cents was all he had in his clothes.

"One gallon," said he. The man in the overalls glanced over the big car again and then flit the driver with a stare of utter disgust. "One gallon!" he sneered; "watcher tryin' to do, wean k?"

During the coming summer a campaign will be on for various county and city offices. (The political patriots who give their support for so much per support are already lining up for their usual share of the political plunder. We often wonder how long the decent people of Lawrence county are going to stand for the rotten political work of the perpetual office holders here. Isn't it about time to swat them. They are not even honest in their opinions.)

In Milwaukee, where the word beer was first heard and a city which suds has made famous or infamous as the thing may appear to differ, it is said that the wets voted five to one for changing the prohibition laws. No one expected the vote to believe it would be in New Wilmington.

Our pastor said on Sunday: "It is well for us to remember that we will have to pay for all our sins."

At Rye, New York, a little girl begged her father to allow her to take violin lessons. He was the father of six and the prospect of paying for lessons and buying a violin presented a problem. John Francis Dyer, for that was his name, recalled that his father and his grandfather had owned a violin, and wondered if it were not packed away in the attic.

When uncovered the violin looked none too promising, but the father thought it would do. The other day a man gave him \$50,000 for it and now Betty Dyer is taking lessons on a new one which does not happen to be a Stradivarius.

President Hoover will probably be able to run everything about the government in a business like way except congress.

We do not blame some blokes for wanting to sing when they are drunk but why some try to sing when they are sober is more than we can figure out.

At Dover, O., a newspaper man was appointed mayor in the place of the mayor who has been fired out of office.

Men who complain about leading a dog's life never had a million fleas digging in, a dozen sores to lick and a bunch of fire crackers added to their tail of woe.

How many sides has a pitcher? Two, inside and outside. Why is it hard to steal a watch? Because it has to be taken off its guard.

Why should a doctor keep his temper? Because if he doesn't he'll lose his patients' patience.

What is it that will be yesterday and was tomorrow? Today.

Wives are people who think it is a violation of the law not to answer the telephone quickly.

It is said that men eat more candy than women do nowadays. Men always did. Even the old-fashioned man, after taking a box of candy home to his wife, ate half of it.

Mother Eve's garden dress was made from fig leaves pieced together, we're told. What a waste of material that must have been as compared with the average dress of this age. Today a woman could almost get two dresses out of a fig leaf.

The kind of cars that locomotives have is engineers of course.

A North Hill chap told us he was setting a trap for his wife and it was only a mouse trap in the pantry. Oh, Wham! do doodle wham!

You don't need a breakfast room. If you crave a locomotive you can crawl under the dining table.

The family had just returned home from church. Mother criticized the minister and his sermon, daughter thought the music and singing were the worst ever. Little brother spoke up and said: "I thought it a pretty good show for a nickel, didn't you, Dad?"

We read about prohibition agents wearing bullet proof vests when making raids. They evidently know what to expect in the way of opposition and go ready to withstand any onslaught by artillery or other weapons of war.

The trouble with a woman who can add up a long column of figures correctly is that she can never get her hair to look right.

THE SPIRIT OF SPRING  
An old man, warped and wan,  
Sows grass seed on the lawn.

The Spirit of the Spring  
That sets the bird a-wing,  
That sets the sky a-flow,  
And conquers ice and snow—  
The Spirit, death despoiling,  
Ever reviving, e'er uprising,  
Undaunted still remains  
To thrill his gentle veins.

An old man sowing seed  
So futilely. What need  
Was there to him, what urge,  
Who creeps along the verge  
Of gaping grave? He knows...  
And yet, he sows... he sows...  
The Spirit of the Spring,  
It is so strange a thing!

The city treasurer has been sending out some lovely cards. We own a piece of property that is taxed just twice what it was when we bought it, but we are not kicking and would pay it if it was three times as much and we got something for our money in the way of improvements.

Sufficient epiphany for a he-man: He never signed a petition.

You have reached middle-age if you wonder what you ate yesterday to make you feel so rotten today.

In discussing a prominent citizen the other day, the claim was made

that he was a fine fellow, but didn't have nerve enough to fight. When his wife heard of it, she said: "You tell that to somebody else!"

OUR OWN LITTLE  
QUESTIONS AND ANSWERS

Why is coal different from anything else that is sold? Most things sold go to the buyer, but coal goes to the seller (cellar!)

How many sides has a pitcher? Two, inside and outside.

Why is it hard to steal a watch? Because it has to be taken off its guard.

Why should a doctor keep his temper? Because if he doesn't he'll lose his patients' patience.

BREAD ON THE WATER.  
Ohio women always were lucky. Back in 1908 Mrs. D. I. Inskeep, of Greenfield, Ohio, after hearing the hard luck story of a young tramp, gave the man a warm meal, a pair of shoes and socks and a dollar bill to help tide him over until he could find work.

The other day a prosperous man called at the Inskeep home, introduced himself as (name deleted) of Kansas City, and handed Mrs. Inskeep \$100. He explained he was the tramp whom she had befriended 20 years ago, that he was now a successful business man and had long looked forward to squaring his old debt.

If the reader wishes to know the name of the now wealthy, once poor man, he may address his nearest Broadasting Station or write to Mrs. Inskeep.

"The better elements" \*\*\* should welcome the President's announcement of his intention to help build up a second efficiency party in the South," advises the CHICAGO DAILY NEWS (Ind.), and the CHARLESTON DAILY MAIL (Ind. Rep.) comments: "The Republican party in the South long has been in need of a housecleaning. Now that it is at least to be given, its future takes on a brightness not hitherto known."

"Never, until the South began to figure in the Republican electoral column," the OMAHA WORLD-HERALD (Ind.) remarks, "did any Republican President move to correct the conditions, or any outstanding leader, including Mr. Hoover himself, rise to denounce them." The MILWAUKEE JOURNAL (Ind.) suggests that "there is altogether too much of party and too little of the responsibility of government in the Hoover pronouncement," though that paper concedes that "it is reassuring to find even this much promise of departing from recent practices."

"We believe that President Hoover himself was represented by some very practical northern politicians before the Kansas City convention in the scouring of the southern country," observes the NEW YORK EVENING WORLD (Ind.), while at the same time agreeing that "if President Hoover can rid his party of the low influence that dominates it in the South, he will be entitled to the warmest congratulations."

The BIRMINGHAM NEWS (Dem.) maintains that "it will not be easy to induce either respectable Democrats or respectable Republicans to engage in the work of reconstruction, so long as the 50-year-old system of keeping the selection of Republican delegates as the prime objective of federal appointments throughout the South" is maintained.

"Whether a true Democrat is capable of being whistled away is a subject of pros and cons argumentatively speaking," suggests the FORT WORTH RECORD-TELEGRAM (Dem.). "It begins to appear that there is a Republican President could not find reputable members of his own party to represent him in the South, he should solicit the aid of reputable Democrats, of whom the Southern woods are full, and President Hoover's hint appears to embody that idea." The ST. PAUL PIONEER PRESS (Ind.) calls the move "a reform of the highest importance, which should free the South of the deadening weight of its one-party system, give new political vitality and energy to those states, and cleanse the Republican party itself of the scandalous system. The Republican party meets the South half way."

If the Republicans go earnestly to work to clean up their affairs in the South, advises the CHARLOTTE NEWS (Dem.), "it becomes the Democrats to show equal earnestness and activity in doing the same thing in states where their own name is none too highly prized." The MEMPHIS COMMERCIAL APPEAL (Dem.) welcomes proposed action with the conclusion that "it cannot fail to result in the elevation of Democratic morals, which at times has descended to a low ebb, a condition that must inevitably prevail when there is no other political party."

Hoover's Reforms In South  
Welcomed By Both Parties

Banishment Of Corruption In Patronage Is Believed By  
Observers Everywhere To Promise Benefits  
For Whole Country

The prospect of a Republican housecleaning in the South at the hands of President Hoover is hailed with enthusiasm by both Democrats and Republicans. "If the new policy is successful and corruption is banished from patronage, the public looks for benefits which will extend to both parties, but comment in the South discloses general doubt that the President's stand will have any considerable effect toward solidifying the Republican gains made there in the last election.

"Long ago," says the BOSTON TRANSCRIPT (Ind.), "we advocated that if a Republican President could not find reputable members of his own party to represent him in the South, he should solicit the aid of reputable Democrats, of whom the Southern woods are full, and President Hoover's hint appears to embody that idea." The ST. PAUL PIONEER PRESS (Ind.) calls the move "a reform of the highest importance, which should free the South of the deadening weight of its one-party system, give new political vitality and energy to those states, and cleanse the Republican party itself of the scandalous system. The Republican party meets the South half way."

If the Republicans go earnestly to work to clean up their affairs in the South, advises the CHARLOTTE NEWS (Dem.), "it becomes the Democrats to show equal earnestness and activity in doing the same thing in states where their own name is none too highly prized." The MEMPHIS COMMERCIAL APPEAL (Dem.) welcomes proposed action with the conclusion that "it cannot fail to result in the elevation of Democratic morals, which at times has descended to a low ebb, a condition that must inevitably prevail when there is no other political party."

"That section has suffered economically," according to the WASHINGTON EVENING STAR (Ind.), "from having for more than half a century stood steadfastly upon a one-party foundation. The way is open to a new dispensation which will effect a reform, the fruits of which will be chiefly, almost wholly, enjoyed by the people of the South." The PITTSBURGH POST-GAZETTE (Rep.) protests against "complete domination by one party, whether Republican or Democratic," and holds that "a strong minority is the best possible guarantee that the party in power will keep on its 'mettle'."

"President Hoover is not merely purifying his party," says the SCHENECTADY GAZETTE (Ind. Dem.). "He is performing a public service in seeking to end a corrupt condition that naturally had an adverse effect upon a large and important section of the nation." The LITTLE ROCK ARKANSAS GAZETTE (Dem.) states: "Both Democrats and Republicans throughout the South will welcome these measures from the White House. The South as a whole is concerned, for the South as a whole suffers if in any southern states the minority's affairs are in the selfish hands of Republican racketeers."

"If President Hoover's ambition were nothing more than partisan, to try to hold southern states only for the added strength it would give the Republican party," in the opinion of the LOS ANGELES EXPRESS (Rep.), "there might be small reason to wish the President success. But his is the broader idea. He hopes by the establishment of the two-party system in the South to put those states in a way to better their own conditions of government, which results from heaping political parties upon each other."

"It will mean an elevation of political standards everywhere, regardless of whether southern states continue to vote, habitually or occasionally, for the national Republican ticket," avers the ASHEVILLE TIMES (Ind. ## PEOPLE BREAK DOWN—

Not from too much work, but from too much worry.  
Not from too heavy loads, but from too heavy consciences.  
Not from lack of pleasure, but from lack of balance.  
Not from monotony, but a too wild chase after variety.  
Not from too much ambition, but from too much absorption in trifles.  
Not from poverty, but from consuming envy and jealousy.  
Not because God forgets them, but because they go off and leave him.

# Campbell Says Sun Will Shine Here On "Appomattox Day"

Prediction of sunshine for tomorrow, or at least that the sun will shine some time during the day, were fearlessly made by Prothonotary R. M. Campbell this morning. This prediction is based on past performances of the weather on April 9th, which is the anniversary of Lee's surrender to Grant at Appomattox. Former Prothonotary Captain A. S. Love, who was connected with the prothonotary office for many years, was present at

the surrender of Lee. The sun shone on that day, and as it in celebration of the event Love noticed that sunshine could always be expected on Appomattox Day. While in the prothonotary's office he always predicted that the sun would shine sometime during April 9th. Mr. Campbell says that his predictions, so far as he remembers, were always correct, so that is the reason Mr. Campbell is going into the predicting business on his own account.

## LAKE FORMS IN SEVENTH WARD

Tyler Brings Water Nuisance Up During Slope Wall Discussion

Clayton Reeves, superintendent of the department of streets, today presented a motion authorizing the city clerk to ask for bids for the construction of slope walls to the Boyles avenue bridge which spans Rural avenue. The motion carried.

During the conversation Councilman Tyler described conditions in the section known as "Kilkenny" homes were flooded, a lake had been formed and that he doubted the feasibility of spending money for slope walls and letting the situations as exists in Kilkenny and other places go.

He said the financial condition of the city may be such that if the slope walls are built there will not be enough money for repairing the situation caused by the flooding of lands and homes.

He declared that employees of his department are compelled to use boats to reach the Booster station in the Seventh ward.

Reeves told Tyler that if necessary a portion of the paving plan could be delayed if it came to a financial question.

"I am not opposed to the building of slope walls but you have often heard this. I have heard it discussed and you have done nothing toward remedying it," replied Tyler.

He asked council to view the section and "see the lake." They admitted they knew of the situation. The city engineer was ordered to investigate and find a way to remedy it.

## State Republican Women Ask Passage Of Harris Measure

By CLYDE SHUE  
International News Service Staff  
Correspondent

HARRISBURG, April 8.—Mrs. Charles F. Etter, legislative chairman of the Pennsylvania council of Republican women, today asked all members of the organization, especially those in the larger cities, to communicate with members of the Senate election committee and urge favorable action on the Harris bill which will require voters to sign a check list at each election.

The Senate committee will hold its last meeting on Monday night and unless favorable action is taken at that time the bill will be killed during the present session.

Mrs. Etter also requested members to cooperate in urging immediate and favorable action upon the proposals for the holding of a convention to revise the constitution. Both bills are now resting in committee. One, sponsored by Senator Horace W. Schantz, Lehigh, after passing two readings was sent back to the Senate Judiciary General committee. A similar bill in the House, sponsored by Representative D. Glenn Moore, of Washington, passed first reading and then was sent to the Appropriation committee.

The Harris bill which the council is backing would compel election officers to have electors sign the ballot list before they could vote. Election officers would be required to compare the names as signed with other signatures of the electors and if satisfied of identity to initial the ballot list.

A separate initialed record would have to be kept of each voter who alleged inability to write. The bill carries a penalty of from three months to two years with the addition of a fine up to \$1,000 for conviction of failure to follow its provisions.

The check list bill and the proposal for the holding of a constitutional revision convention are two major points in the legislative program which the council backed that so far have failed to receive favorable action, Mrs. Etter said.

### Gay Paree Makes Bow Here Tonight

Pretty Girls And Celebrated Artists Arrive From Wheeling Today

Tonight will be an occasion of first times at the Cathedral auditorium. For the first time the all new "Gay Paree" will stand revealed at the Cathedral auditorium.

For the first time in the theatrical history of New Castle a Winter Garden revue will be presented before the New York premiere.

For the first time in this city a local stage will be graced with as many as three dozen beauties, all of French birth. These, with as many more graceful and comely U. S. girls, make up an important decorative feature of "Gay Paree" and account for almost half the entourage of well over 150.

A special train of 11 baggage cars and Pullmans is required to transport the big outfit from Wheeling, W. Va. Chief of the entertainers is Charles "Chic" Sale, whose grol rural characterizations—so American and so funny—make his advent a perennial joy. Other prominent performers include Frank Gaby, Stanley Rogers, La Pulchre, the loveliest being in the world, Sylvia Froos, Franklin Balle, Kelo Brothers, Margie Evans, Margherita Marano, Lillian Herbert, Oliver Reese, Gresham & Hully, Charlotte Terry, John McDowell, Charles Mac, the famous Berkhoff troupe and a populous gathering of fair girlhood.

As a spectacle "Gay Paree" may never be approached and certainly not excelled. The four walls of theatres have reached their limit and "Gay Paree" has reached them. Among the opulent incidents are "Wedding of Venus," "The Love Boat," "Artists Inspiration Dance," "Tree of Love," "Vive la France," "Bangaway Isle," "Mothers of the World," "Boogie Man," "Rhythm of Joy," "Parasol Parade," and "Ballets of Beauty."

### Crash In Tyrone Kills Two Women

ALTOONA, Pa., April 8.—Miss Sylvia Lorneth of Epprata, Lancaster county, was instantly killed; Miss Mary Kessler, of Tyrone, fatally injured, and Miss Ruth Kessler seriously injured when the automobile in which they were riding was struck by a street car in Tyrone. Miss Mary Kessler died soon after the accident. Miss Ruth, her sister, was brought to the Altoona hospital. She will likely recover.

### Two Are Killed In Auto Accident

IRONTON, O., April 8.—Fred Hill, 35, and Mrs. Minnie Pennington, 56, both of Pine Grove, O., were killed when their automobile ran over a 20-foot embankment on the New Castle pike, just outside the city limits. Charles Heading, 38, and Callie Gillmore, 20, both of Ironton, other occupants of the machine were not seriously injured. Hill and Mrs. Pennington suffered broken necks.

## The Distance To The Stars

By S. S. MYERS

A friend wants to know how astronomers measure the distance from the earth to any fixed star.

That is a geometrical problem and somewhat difficult to explain without a knowledge of the scientific instruments used for that purpose. But let us begin with a simple illustration. For example the scientist wants to know the height of a tree: he measures off say 100 feet from the foot of the tree and then draws a line from that point to the top of the tree. That gives him a right angled triangle, the base of which is 100 feet. Knowing the slant, or angle of the top line, the height of the tree can readily be obtained.

Now, suppose we want to find the distance from the earth to the moon. We will have to station a man somewhere far south of the equator—say at Cape Horn, and another an equal distance north of the equator, in the same longitude. Then, when the moon is at the meridian, each man, at the same time, views it from a different angle. One sees it at an angle to the north and the other at an angle to the south, and the distance between the two men will form the base of the triangle. Knowing the length of the base line and the angle of the two sides of the triangle the distance of the moon from the earth is ascertained.

But if we want to get the distance to the nearest fixed star—Alpha Centauri, for instance, the base line used for measuring the distance of the moon will be too short; the sides of the angle will be so near parallel that no calculations can be made. Therefore we must secure a longer base line. The only way, (until recently) that we can get the distance to Alpha Centauri is to take the angle—say January first and again on July first when the earth is half way around its orbit to a point 184,880,000 miles distant from where it was on January first. We now have a base line of sufficient length to get the distance of Alpha Centauri, which is 275,000 times as far away as the sun.

However, if we were to use this same base line for measuring the distance of most of the fixed stars we would get no result, because we cannot get a base long enough to form a triangle. Nevertheless astronomers now have instruments which they can use to measure the distance of a star by the light it emits. Any attempt to describe these delicate, "spider-webbed" instruments, and the methods employed in measuring distances would require too much space for an article of this kind.

the eclipse combined with other data obtained through astronomical instruments, a diameter of one million miles has been figured out for it. The entire body of the stars give the earth one sixteenth as much light as the full moon, and decidedly mitigates the darkness of the night. Seven billion stars like Sirius would be required to make night as bright as day.

## Fireworks Plants Damaged By Blasts

Town Of Carlstadt, New Jersey, Rocked By Series Of Blasts From Two Factories

(International News Service)—CARLSTADT, N. J., April 8.—An investigation was being made today into two blasts which rocked this town yesterday and which was felt throughout the entire metropolitan district. Two fireworks factories were razed when their stocks of "Fourth of July" noise-makers exploded. None was injured.

Police were investigating the possibility that spontaneous combustion caused the first explosion. Burning brands, carried by the high wind, spread the flames to the second factory.

## Suicide Is Found, Bullet In Brain

CONNELLSVILLE, Pa., April 8.—Believed to have been despondent because of his implication in the liquor party at Ohio Park, east of here, which resulted in the killing of Alex Johnson some months ago, William Joseph, 50, ended his life by firing a bullet into his head. The body was found along an old log road off the main highway to Maple Summit by Frank Badler, who was en route to work.

## Only Seventy Drivers Forfeit Auto License During Past Week

HARRISBURG, April 8.—Revocations of automobile drivers' licenses for infractions of the motor code dropped to 70 for the week ending April 4, the Department of Highways announced today. During the previous week 213 licenses were revoked. Licenses of 17 persons were revoked for intoxication. Nine revocations resulted from charges of larceny, 11 from being involved in a fatal accident, seven from being involved in a fatal accident and failure to file an accident report and five from reckless driving. Among those who lost their licenses on charges of intoxication were Frank J. Riley, Scranton; Edward H. Moyer, Allentown; Kenneth Machline, Harrisburg; Allen Devine, Wilkes-Barre; Harry A. White, Norristown; and John O'Donnell, Mauch Chunk. Carl Wood of Waynesburg, lost his license for failure to stop after an accident. The license of William G. Kerschner, Shamokin, was revoked for being involved in a fatal accident and failure to file a report of an accident. Revocations of their licenses resulted from reckless driving for Joe Nicolini, of Wayne, and Benjamin Harrison, of Franklin. The license of Saul M. Holden, Wilkes-Barre, was revoked on charges of habitual violation of the motor code.

## Temperature At Weather Station Affected By Water

Evaporation From Water Surrounding Temperature House Causes Low Reading

Weather Observer B. F. Johnson, whose station is located at the pumping station of the New Castle Water Works along the Shenango river, is having a difficult time getting the true temperature for New Castle. The water in the Shenango river has risen so high that it touches the bottom of the temperature house, and the evaporation from the water has resulted in a lower reading than would be found in other districts of the city, where it is drier. Saturday's and Sunday's temperatures were several degrees lower at the temperature house than were registered on reliable thermometers in other sections of the city. Observer Johnson is going to have the temperature house moved after the present high water subsides. During the past few days, he has had to don rubber boots to get to the temperature house.

## Doctor Finds Hay Is Able To Serve Time In Workhouse

Marion R. Hay, former New Castle druggist, who was refused admission to the workhouse two weeks ago on account of alleged physical inability, was taken to that institution Saturday. After Judge James M. Galt had sentenced Hay for violation of the liquor laws and he was refused admission to the workhouse, the court ordered a physical examination of Hay. The physician failed to find any condition that would endanger the man's life if incarcerated, and the result was that he was again taken to the workhouse and admitted.

## Traffic Commission Will Meet Thursday

Members of the official and unofficial bodies of the New Castle traffic commission will meet Thursday evening at 7:30 o'clock in the office of Mayor W. H. one week of final examinations, and four days for class day and commencement activities, students and faculty alike will be kept busy every minute. Among the major activities planned for the last portion of the college year are: Junior class play, April 30; May Day, May 25; five varsity track meets; 12 varsity tennis matches; girls' intercollegiate debates; senior reception, and final examinations and commencement activities.

## Benefit Concert Proves Success

Concert For Miners Fund Brings Excellent Return Sunday Evening

The concert last evening in the First Congregational church for the benefit of the suffering miners and their families of Wales, was a success in every way. The duets by Miss Blodwin Lewis and R. E. Johns, Mrs. W. P. Felch and Samuel Lewis, and Messrs. Anthony and Evans left nothing to be desired, while the soloists, the Misses Gibson, Garvin and Lewis and Messrs. Hubert, Thomas and Dr. Womer were highly appreciated, as were also the readings. The work of the several accompanists was also inspiring and added much to the success of the evening. The numbers rendered by the male chorus were such as to call for repeated encores and the ensemble singing by the congregation was most impressive. The results of this splendid program of song and speech, which will be mailed at once to those in whose cause the concert was held, was very gratifying.

Dear Sir:—  
In the April 4th issue of The News in Arthur Brisbane's column, I noticed that a prize is being offered for the best answer to the question, "Why go to church?" There is just one right answer and that is that Christ, our example, went to church "as His custom was. He went into the synagogue on the Sabbath day." Luke 4:16.

## Pilots Stage Aerial Battle

Eric Beckley And Ronald Smith Give Thrills To Local Onlookers

Zoom-and an airplane shot down several hundred feet from the heavens as though in a crazy flight, another plane shot zig-zaggedly after it, they circled warily about each other, cutting here, dodging there, and missing each other by inches in the eyes of the onlookers several thousand feet below. Some of the more timid souls thought that an aerial attack was being made on the county while some of the more romantic believed that some handsome movie stars were being screened in a thriller. The truth of the matter is that the planes were being piloted by Eric Beckley, pilot for D. Roy Bradford, and Captain Ronald Smith, pilot for Robert C. Love, and they were staging an air battle for the fun of it, and including all of the aerial attack maneuvers Sunday afternoon about three o'clock. The planes were small in the distant clouds and they resembled two flies in a battle to death. The "quarrel" lasted about 10 minutes before the local pilots allowed some 200 people on the Bradford flying field below get their breath freely, and came down. Both Beckley and Smith are former army fliers.

## Large Audience Hears Cantata At Central Christian

A large congregation filled Central Christian church Sunday evening to hear the chorus choir augmented to fifty voices sing the Easter cantata "Hosanna" by Roy Nolte under the direction of David Lewis, director, with Roy Strobel at the piano. The production was one of the best presented in the city during the Easter season. The soloists of the evening included Mrs. Alfred Evans, Mrs. William Wilcox, Frances Gibson, Alfred and Glenn Evans. A duet number was given by David Lewis and Alfred Evans and a quartet number by Dorothy Price, Edna Strobel, Glenn Evans and Alfred Evans.

## James K. Pollock To Make Address Tonight

Will Present Interesting Data Concerning "The New Germany"

Meeting of the Woman's club to be held this evening at 8:15 o'clock in the Highland United Presbyterian church and addressed by Prof. James K. Pollock, an instructor in the University of Michigan, is an open meeting and both men and women interested in the topic "The New Germany" which is to be presented by Prof. Pollock, will be welcome to attend. Prof. Pollock, a native of this city, who has made a name for himself in subjects dealing with the political life of this and other countries of the world, having successfully published a number of books on these subjects will present at this time, those things he observed and learned while in Europe for a year recently, while on

leave of absence from his duties at Michigan. It is anticipated that the fact that he is a local product who has made a name for himself throughout the country and in fact the world, because of his researches along these lines, will accord him a large and enthusiastic audience this evening.

## Boy Scout Leaders Will Meet Tonight

The weekly session of the local Boy Scout leaders training school will occur this evening at 7:30 o'clock in the First Christian church on Third street. L. P. Round and Charles McGrath will be the main speakers of the evening. Prior to the meeting which is to occur at 7 o'clock, staff members will meet at the Walford restaurant to outline the work of the evening. ## Wants Damages For New Highway

MERCER, Pa., April 8.—George Swingle of Jefferson township has petitioned the court to have viewers make assessment of the damages to his 81 acre farm located along the right of way of the Sharon-Mercer road that was improved this past summer.

The court today appointed J. W. Nelson and J. M. Miller of Mercer and L. E. Burnside of Sharon to make this view and report.

The farm is the second reported this week at court damaged by the building of this road. A quantity of land was pre-empted by the state to provide for the change of course. The county pays the damage bills.

## New Castle Firms Awarded Contracts

MERCER, Pa., April 8.—To the Bartley Electric company of New Castle is awarded the contract for the wiring of the Presbyterian church at Leesburg that is to be started at once with the general contractor Albert C. Lusk. The price on the electric work is \$165.

To the Stevenson Plumbing and Heating company of New Castle goes the contract for plumbing the church at a price of \$1640.

## New Device Makes Possible Sending Photo In Minute

Westinghouse Engineer Improves  
Tele-Photo Transmission  
Of Pictures

(International News Service)  
PITTSBURGH, April 8.—Trans-  
mission of a photograph or letter to  
friends in Tokio, Paris, Buenos  
Ayres or Timbuctu in less than a  
minute will probably be possible  
within the next few years, according  
to Dr. V. Zworykin, of the Westing-  
house Research Laboratories in East  
Pittsburgh.

Apparatus that will make possible  
transmission of documents and pho-  
tographs is being perfected by Dr.  
Zworykin. The device which effects  
picture transmission will send and  
receive a picture in black and white  
or half tones of a size of five by eight  
inches in about 48 seconds.

With written messages, Dr. Zwory-  
kin said, transmission is accomplished  
at the rate of about 60 words a min-  
ute. The received messages and pic-  
tures are reproduced on photographic  
paper directly from the original pic-  
ture or message.

Dr. Zworykin's method is radically  
different from all other present  
methods of picture and message  
transmission. The scanning of the  
original picture or message is done by  
a pencil of light with very sensitive  
instruments to utilize and interpret  
the light reflected from the object to  
be transmitted.

The original source of light is first  
focused on a diaphragm to make the  
size of the spot independent of the  
size of the source. The image of the  
diaphragm, with necessary reduction is  
then focused on the surface of the  
picture.

The light reflected from the pic-  
ture is gathered by means of a curved  
reflector, the focus of which coincides  
with the illuminating point. Part of  
the reflector is cut away to allow  
passage of the light.

In this way practically all the re-  
flected light is collected and project-  
ed as a more or less parallel beam by  
the reflector. A flat mirror with a  
small hole for passage of the illumi-  
nating spot intercepts the reflected  
light at an angle of 45 degrees and  
diverts it to the photo-cell.

A standard bromide photographic  
roll is at the receiving end of Dr.  
Zworykin's apparatus. The roll is  
wrapped around a recording cylinder  
and a special helium glow lamp fur-  
nishes the light for making the re-  
production.

## Your Broadway AND Mine

WALTER WINCHELL

Exclusive Central Press Dispatch to  
New Castle News

NEW YORK, April 8.—Since the  
invasion of one of the big electric  
companies into the cinema a lot  
of press agents have discovered an-  
cient words that they didn't know  
existed. A few of them are: "Thank  
you" and "Please." One of the ap-  
pliance firms, incidentally in the bil-  
lionaire class, has installed 12,000  
sound devices in theaters throughout  
the country. But nothing has been  
said of it, no exploitation at all. If  
this had been accomplished by a  
movie outfit, the fact would have  
been heralded far and wide.

When a press agent for the ap-  
pliance company, recently displayed  
his copy, which would acquaint the  
public with the installation feat, the  
executive said: "Don't you think that  
would appear too boastful?" The  
press agent, who had just transferred  
from a movie company, almost col-  
lapsed, and writes us that he is will-  
ing to sell at any price his package  
of superlatives, for which he no longer  
has a market.

### BIG BEN

There's a gag about Ben Bard, the  
actor, who recently married Ruth Ro-  
land, the screen favorite, who in-  
vested in real estate when every one  
in Hollywood was investing in gin.  
For a wedding gift Miss Roland gave  
her new husband a million dollars.  
Their wedding was an elegant affair.  
The morning after their first night  
in a Hollywood hotel, where they  
were wed, Miss Roland went down-  
stairs to the clerk and said: "I'll  
pay for the wedding festivities, but  
my husband will pay for our room."

### BY WAY OF REPORT

The reformers and blueses who  
enjoy getting their claws into the  
supposedly immoral stage perfor-  
mers, should try Roger Imhof on their  
pianos. Besides writing innumerable  
volumes on the history of the stage,  
Mr. Imhof has also prepared no fewer  
than fifty unpublished volumes of  
verse dealing with "the beautiful  
things in life."

And he recently completed "The  
Actor's Bible," which not only is a  
complete translation of the Good  
Book, but is really a sensible and be-  
lievable religion.

But what we started out to say was  
that Mr. Imhof, who has written so  
much stuff, hasn't thought of a new  
line for his act, which he has been  
playing for fifteen years.

### A FORM OF TORTURE

A show girl in a local attraction  
had the headache all day recently be-  
cause some woman, who didn't sign  
her name, forwarded a beautiful cor-  
sage of gardenias to her. The card  
accompanying the posies read: "In  
appreciation of the care you took of  
my husband while I was in the hos-  
pital."

### JUST FINDING IT OUT

The Hollywood Telegram's column-  
ist, gravely prints this discovery:  
"With music shows, vaudeville acts  
and acts and stage players bring new  
words to the talkies. Hollywood is  
speaking a strange slang. 'Hoofers'  
are dancers. 'Humpty-Dumpty' is  
anyone who is unintelligent. 'Hand-  
sitters' and 'foibles' mean a cold audi-  
ence. A 'dumb act' is an acrobatic  
turn, and so on. Buddy Rogers, not  
yet up on all the quaint terms of  
back stage, was a bit upset the other  
day when Nancy Carroll came to his  
dressing room, knocked and asked:  
'Are you decent?' It only means:  
'Are you clothed sufficiently to re-  
ceive visitors?'"

In this day of telephone, telegraph  
and television, too!

### NEWSPAPERMAN STUFF

On board the ship Lowell's liquor  
board the late dance recently en-  
barrased Heywood Brown of the  
Telegram. He didn't know anything  
about the raid until his paper tele-  
phoned him to ask for details. A simi-  
lar incident was experienced two  
summers ago by Gilbert Gabriel, then  
the dramatic critic for the Evening  
Sun. He was Yurup-bound on the  
same liner with Sam Bernard, who  
died at sea, but Gabriel didn't even  
know he had been sick until his pa-  
per wirelessly: "Cable story about  
passing of Sam Bernard on your  
ship."

### HE MIGHT GO BROKE

From Paul Palmer comes the re-  
port that when Calvin Coolidge was  
recently in New York an autograph  
hunter managed to get to the former  
president's said: "Mr. Coolidge,  
I can get you the original of that  
Webster cartoon showing you lying  
in bed the day after you quit office,  
with the alarm clock ringing and you  
chuckling to yourself. All I ask is  
that you write me your check for 60  
cents. I'll never cash it. I promise.  
I merely want your signature."

Mr. Coolidge thought it over, and  
then chirped: "No, I'm sorry. I've  
got too many of those checks out al-  
ready."

## "I FEEL BETTER THAN I HAVE FOR 25 YEARS"

Says This Man, After Famous Ten

Troubles.

"Since taking Ten Herbs, all my  
health troubles have been relieved,  
and I feel better than I have for 25  
years," was the recent statement of  
Mr. Noah Inslay, Post Office Box 147,

Ten Herbs Man, who is at Eckerd's  
of New Castle, Inc., 30 East Washing-  
ton Street, this city, where he is daily  
demonstrating this famous new her-  
bal medicine.

"I had been in very poor health for  
the past 6 months," continued Mr.  
Inslay, who does state road work. "My  
stomach was so weak I could not di-  
gest food properly. The least bit of  
food caused me terrible distress. I  
could not eat meat, as it was like pol-  
son to me. I would bloat with gas  
and belch a hot, sour liquid, which  
would burn my throat. I did not dare  
eat much, and consequently my sys-  
tem was under-nourished, and I lost  
24 pounds in weight."

"My liver was sluggish, and this  
caused me to have sick headaches.  
While at work I would have such se-  
vere dizzy spells that I feared I would  
fall over. Sometimes my eyes became  
blinded. My kidneys were weak, forc-  
ing me to arise several times at night.  
I had bowel trouble. I was nervous  
and could not get much sleep. Al-  
though I used different kinds of medi-  
cines the past 6 months, I kept get-  
ting worse."

"I read about Ten Herbs in the pa-  
pers, and started using it. The first  
bottle gave me such fine relief from  
all my ailments that I continued with  
your preparation for awhile. Now  
I can eat regular meals without fear  
of having distress afterwards, as food  
digests properly. I no longer bloat  
with gas or belch that hot, sour il-  
lud. Headaches and dizzy spells are  
gone. My kidneys have been helped,  
as I do not have to arise at night. My  
bowels are regular. I can sleep bet-  
ter, since I have been freed of ner-  
vousness. I feel so well since taking  
Ten Herbs that I want to tell other  
sufferers about your wonderful medi-  
cine."

The Ten Herbs Man is at Eckerd's  
of New Castle, Inc., 30 East Washing-  
ton Street, this city, where he is daily

merits of this medicine.

## Experts prove— "Wringing makes the Clothes CLEANER"

THE squeezing action of the Maytag  
Roller Water Remover forces out the  
last bit of dirt that would dim the  
clothes, the last particle of soap that, if  
allowed to dry in, would rot the fabric.

Developed at a cost of over a quarter of a  
million dollars, it is an outstanding im-  
provement in soap and water removal  
methods. Combined with the Maytag cast-  
aluminum tub and gyrofoam action, it gives  
you a cleaner washing with less time and  
with less effort.

### Toll Bridge Earns Large Dividends

(International News Service)  
HAGERSTOWN, Md., April 8.—The Williamsport bridge spanning the Potomac river near that town and connecting Maryland and West Vir-

gina has paid \$200,000 in dividends in the last five years according to records of the Public Service Commission.

The bridge originally cost the Washington and Berkeley Bridge Company \$87,000 in 1907 when it was first put into service. The structure is 1,000 feet long with a toll gate at the Maryland end.

The earnings of the bridge have often been compared with those of the Susquehanna river span at Havre de Grace, known as the "gold mine" bridge whose tolls amounted to \$200,000 a year. This bridge was made toll-free in 1928.

## Here Are Rules For Plane Model Contest

Rules And Requirements Announced For Bradford Model Airplane Contest

Boys Should Mail Entry Blank To Boy Scout Headquarters At Once

According to reports received at the Lawrence County Boy Scout headquarters in the Greer building here, a large number of boys are contemplating to enter the Bradford Model Airplane Contest which is being conducted by the scout organization and which is open to every boy in the county under 21 years of age.

Following is printed the rules for the contest. This is the first of a series of articles which will explain the contest in full. In order that the contestants will know just what is expected, and can start working on models immediately, the types of planes are designated here.

Three distinct types—Fuselage models; these planes must have the rubber within the fuselage. The fuselage covering must extend at least 4-5 of the length of the rubber motor measured from the inner face of the propeller to the opposite hook connection. They must be generally similar in appearance to real planes but need not be to the scale nor be exact reproductions of specific planes. The body may be any shape. Double cov-

ered or hollow wings are required. They must have a landing chassis with two or more wheels in front, with either a wheel or tail skid at the rear.

Second—Planes with power other than rubber; contestants are allowed to purchase rockets, spring motors, compressed air motors, tank outfits and other motor devices, but in all other respects the planes must comply with the regulations of being built by the contestant from the raw materials.

Third—Planes that do not fly; these planes will be models of skillful craftsmanship and may be any design, or size. These models will be displayed only. Prizes will be awarded on the basis of skill in construction. Prizes won from this class will be other than the opportunity to go to the national contest. Planes that fly will be the only models which will give points toward the grand first prize and trip to Louisville, Kentucky.

NOTE—All planes must be made and operated by the contestant. In addition to the raw materials, contestants are allowed to purchase in finished form only bearings, propeller shaft, small metal fittings and wheels. Special attention is called to the requirement that all floats and propellers must be made by contestants. Any plans or patterns may be used provided the models come within the contest requirements.

(To be continued.)  
All boys in the county under 21 wishing to enter the contest should mail this application blank to the Boy Scout Headquarters, Greer building, New Castle, Pa., immediately. All such blanks will not be received later than April 30.

Local Ministers And Laymen To Represent New Castle Churches At Alliquippa

Pastors of the four United Presbyterian churches of New Castle and a layman representative from each congregation will go to Alliquippa tomorrow to attend the regular spring meeting of the Beaver Valley presbytery which will take place there.

The pastors and laymen will attend from New Castle are as follows: Highland U. P., Dr. G. J. Williamson, John M. Wallace or Thomas A. Gilkey; First U. P., Dr. S. E. Irvine and W. J. Ewing; Second U. P., Dr. A. J. Randles and D. G. Duff; Third U. P., Rev. S. B. Copeland and W. E. Perry.

The visitation committee of Perry S. Gaston Post, American Legion, will

pay a visit to the Sharon post tomorrow evening when they will express their appreciation of the splendid turnout of the Sharon post at the national commander's banquet in February.

The local boys will take a good-sized delegation with them and will also provide a program for the Sharon post. The Sharon boys also promise some fine things in the way of entertainment and a fine evening is in store for those who make the trip.

### Leaves Home To Greenville Y. W.

GREENVILLE, Pa., April 8.—Greenville will have a Y. W. C. A. if its people take advantage of the provisions of the will of Mrs. Nellie Kamerer.

Mrs. Kamerer, who died recently, gave her eighteen-room brick home, valued at \$20,000, to the town if a Y. W. was established.

If the organization does not take over the residence in Greenville, it will go to the Greenville hospital. Mrs. Kamerer had no immediate relatives.

THE THEATER.  
Probably Mr. Brady famous theatrical producer is wrong. We hope so. He predicts the end of the legitimate theater. It will go out of business in another three years he says.

Mr. Gilmore head of the Actors' Equity association is an optimist. The Mr. Gilmore head of the Actors' was 25 years ago so people thought. Bicycles was going to kill it then. Now it's something else. And Mr. Gilmore hopefully as he is probably also sound in his judgment. The motion pictures are increasingly more wonderful. But they are different. They do not take the place of the living, breathing drama. Why do we have to give up one good thing because we have another good thing?

WHY THAT?

## Farm Committee Begins Drafting Of Relief Bills

Farm Bills Being Drafted This Week Will Be Presented At Special Session

### HYDE'S SUGGESTION MEETS OPPOSITION

First Disagreement In Hoover Administration Appears On Surface

By WILLIAM K. HUTCHINSON.  
International News Service Staff Correspondent

WASHINGTON, April 8.—The first open sign of disagreement between the Hoover administration and congress over agricultural relief appeared today as farm leaders on Capitol Hill began the actual drafting of a new farm relief bill for introduction at the special session a week hence.

Armed only with presidential generalities and a few suggestions from Secretary of Agriculture Arthur M. Hyde the house and senate agriculture committees planned to write their own bills and then submit them to the White House for approval. An effort may be made during the week to secure some further word from the President as to his wishes on farm legislation but if this fails congress will assume full responsibility for the new agricultural measure.

**Suggestion Made.**  
The one new suggestion offered by Secretary Hyde during his appearance before the two committees—that the proposed federal farm board be placed within the agricultural department—met with considerable opposition in congressional circles. Members of both senate and house committees declared they felt the board would be an independent body named by the President but subject to no authority. It was indicated both committees would reject this suggestion of Hyde.

Pending some definite word from the President both house and senate committees will write bills this week

for the creation of a farm board, a \$300,000,000 federal revolving fund, advisory councils of farmers for each crop and stabilization corporations to handle surplus crops during emergencies. Both committees likewise will provide government aid for cooperative marketing associations, including federal loans to the cooperatives can increase their membership.

**McNary-Haugen Active.**  
Senator McNary as the senate chairman and Rep. Haugen (R.) of Iowa, as house chairman probably will confer with the President within the next few days. They will discuss the tentative provisions of their bills and if the President has no serious objections, nor counter proposals, the bills will be introduced at each end of the capitol next Monday as administration measures.

Under present plans the administration chiefs plan to secure quick action on the bill. Their present goal is to have a new farm relief bill enacted into law by June 1.

## Women Of Division Gather Tomorrow

Pennsylvania Women's Aid Meeting To Attract Good Crowd; Meet At Y. W. C. A.

Officers of the Women's Aid of the Erie and Ashabula division of the Pennsylvania railroad are anticipating a large attendance for the regular April meeting of the organization which will take place at the local Y. W. C. A. on Tuesday. Ladies are expected to attend from all points on the division.

The meeting will open promptly at 1:30 p. m. Mrs. Raymond Swenk, wife of the superintendent of the local division and president of the division's Women's Aid will preside over the business portion of the meeting. Following this will come the program of entertainment which Mrs. C. W. Van Nort and her staff has arranged. Attending as a special guest tomorrow will be Mrs. P. L. Grove, wife of the general superintendent of the Pennsylvania's Lake division. The meeting tomorrow is of special importance due to the fact that it will be the last of the Aid until fall. This coupled with the fact that Mrs. Grove will attend should attract a large turnout to the meeting.

## Former Local Boy Wins Vail Award

Allard J. Davids Is Given Medal For Conspicuous Act Of Public Service

Among the six employees of the Bell Telephone Co. of Pennsylvania, who will be presented with the Theodore N. Vail medal for conspicuous acts of public service in emergencies occurring in 1928 is Allard Joseph Davids of McKeesport, former New Castle boy.

The award to Davids was made for initiative and conspicuous proficiency in the application of first aid, resulting in the saving of human life.

Davids and Hubert N. Flegie, both of whom are installers employed out of the McKeesport office, are credited with saving the life of a small boy who had been badly injured in an automobile accident at Wilmerding.

## Two Meet Death In Auto Crash

Two Others Seriously Injured Near Wheeling In Accident Sunday Afternoon

(International News Service) WHEELING, W. Va., April 8.—Two men were dead and two others were at the point of death in a hospital here today the result of an automobile crash at Thompson's station, near here yesterday. Police said that the car containing the four men was traveling approximately 70 miles an hour, and was unable to make a curve, crashing into an iron telephone pole.

The dead are James Amien, 20, and George Pappas, 42, both of Wheeling. Mike Russell, 34, and Andrew Pirso, 40, were reported critically injured.

As the machine turned over, Amien, Pappas and Russell were thrown clear of the wreckage. Pirso was thrown under the vehicle as it completed the turn, police said.

## Heat Wave Hits Eastern Cities

Warmest April 7th In History Experienced At Philadelphia On Sunday

(International News Service) PHILADELPHIA, April 8.—The warm wave that struck the eastern seaboard Saturday and Sunday will continue, with temperatures only a few degrees below the high records established yesterday, according to the weather bureau reports here.

The thermometer rose to 82 degrees at 10 a. m. today in Philadelphia only eight degrees below the high record of Sunday. Partly overcast skies, however, are expected to prevent the temperature mounting to above 85 this afternoon.

All records for April 7th were broken yesterday by 12 degrees when the mercury climbed to 90. The hot wave drove thousands to the beaches at Atlantic City, Ocean City and Wildwood, N. J., where the bathing season was officially opened. Few remained in the chill water long, however. The Sunday crowds far exceeded the Easter throngs.

## PAY TRIBUTE TO LODGE DECEASED

(Continued From Page One)

past dictator of New Castle lodge, was delivered in a forceful manner and proved of unusual excellence. Rev. R. G. Roscamp acted as prelate and gave the opening prayer, also the benediction.

The ritualistic service as conducted by T. A. Dunn, the dictator, and assisting officers was most impressive, especially at the calling of the roll of the deceased members.

Promptly at 9 o'clock the officers and everybody present turned facing the west and said the following: "Suffer little children to come unto me, for of such is the Kingdom of Heaven. God bless Mooseheart. God bless Moosehaven." It was a very impressive moment in the services of the evening.

The stage, where the officers of the lodge and the speaker of the evening were seated, was most attractively decorated for the occasion with Easter lilies, palms and ferns. The electric light effects were also of a special character. The officers of the lodge were all in evening dress.

**Deceased Members.**

The deceased members, whose memory was honored last night are as follows: Charles Perrino, Frank J. Kille, James H. Jones, Charles C. Rigby, Charles A. Mastren, A. L. Urey, Dominic DiMussio, Michael Cangey, George Fred Stanton, John O'Donnell, Dr. Samuel Thomas, Edward J. Blanning, J. P. Sturm, James D. Lanning, Sr., Michael Madison and W. J. Kennedy.

The officers of the lodge are: Junior Past Dictator, Harry L. Wright; dictator, Thomas A. Dunn; vice dictator, Thomas W. Jenkins; prelate, S. E. Dieringer; secretary, T. M. Moore; treasurer, James J. Dunn; sergeant-at-arms, James E. Jackson; inside guard, M. A. Klaber; outside guard, Carl Becker; trustees, Amos Snyder, Jacob C. Shook and Harry L. Wright.

The committee in charge of the event consisted of S. H. Dieringer, Frank Krossen and W. R. Williams. The ushers were in charge of Audie Southern.

## Commercial Travelers Have Memorial Service

Annual Service For Deceased Members Of The Order Held At First Baptist Church

United Commercial Travelers Association of America were guests of the First Baptist congregation Sunday evening at the annual memorial service of the order for the members who have passed away since the organization was formulated some years ago.

Seats in front of the auditorium were reserved for the men, about fifty being present. The platform was beautifully decorated with calla lilies, carnations and palms.

Previous to the message of the evening by the pastor, Rev. George M. Landis, a brief impressive memorial service was carried out by Rev. Frank Brennenman assisted by W. R. Campbell and his little daughter, Betty Lee for the nineteen members who have died since the forming of the organization. Four have died during the last year.

Following this service, Rev. Landis delivered a forceful sermon on the theme "A Sales Talk." The choir repeated parts of the Easter cantata given on Easter Sunday evening.

Wesley Lyon of Vine street, who has been seriously ill, is somewhat improved.

Mrs. Elmer Werner and son Clyde of Hubbard, O., were the guests of Mr. and Mrs. J. H. Conrad of Haus avenue Sunday.

## Roof Water Must Not Be Drained Into Sanitary Sewer

Council Orders First Step In Plan To Effect Remedy

Council in assembly at City hall today instructed City Solicitor Robert M. White to proceed immediately to effect a remedy as it has been alleged in an information furnished by Municipal Engineer Frank Miller that roof water is flowing into a sanitary sewer at the residence of Hugh Graham, 215 East Lincoln avenue.

The connection it was alleged was installed by the Carlin Plumbing company.

Some time ago the mayor it was stated had found the facts as alleged but nothing toward its abatement has been done.

"We cannot hope to curb this practice if we do not curb those we know exist was the substance of a statement made by Davies.

Councilman Tyler said the information presented today came from a charge made Friday during council session.

Solicitor White said the city should disconnect the sewers. Burns thought the expense would be too big for the city.

"All right," declared White, "I'll get rid of this situation."

Recently council instructed Municipal Engineer Miller to employ inspectors and make an investigation of places where it was suspected that roof water was being sent into sanitary sewers.

## HAWKS MEASURE UP FOR ACTION BY LEGISLATURE

(Continued From Page One)

days or both at the discretion of the court.

**May Force Fight.**

Compulsory automobile insurance bills have cropped up at the last three sessions of the legislature but they have failed to meet with the approval of house and senate members. There may be a fight on the Hawks bill tonight but the prediction was made here today that the measure will not reach the governor's office.

Probably the most important bill on the house calendar tonight is the Harris voting machine bill, but today there was some doubt as to whether or not the measure would be passed finally tonight.

The question of assistance to voters "behind the curtain" has been raised and the bill's supporters are desirous of clarifying the section in such a way as to remove all doubt. The purpose of the bill is to prohibit assistance inside the booth and it may be that the measure will be amended on reading so as to carry a clarifying clause.

If this is done then the bill will not be passed finally until tomorrow. The measure has already passed the senate but will have to be returned to that body for concurrence in amendments made by the house.

**Committee Meetings.**  
Committee hearings will occupy the most interest in the senate although the most important that of the senate committee which is expected to hear the arguments of State Treasurer Lewis and Secretary of Highways Stuart on road finance may not be open to the public.

The senate has 71 bills on its third reading calendar for tonight; with six others up for final passage. Forty bills are listed on the second reading calendar.

Among those on third reading which are expected to pass with little or no opposition tonight are the Harvey appropriation bill for the Wilkes-Barre General hospital, the Boubrake measure further regulating the sale of securities in Pennsylvania, the Mansfield bill providing for double compensation for injuries to minors employed illegally, the Sowers bill establishing a centennial station magistrate court in Philadelphia, the Schantz measure regulating the publication of notice and advertisements in newspapers, the Sterling bill making the office of city solicitor elective in cities of the first class and the Clark measure providing for the acquisition by the commonwealth of the Downing industrial and agricultural school.

**Large Calendar.**  
The house calendar for tonight is the largest in the session. There are 122 bills on first reading, on third reading and final passage and 83 on second reading.

The first time this year both houses will hold a four-day session this week. The extra day is necessary because of the great amount of work which must be handled before the gavel falls for the last time on April 18. It is estimated that more than 800 bills will pass the two legislative houses during the remaining eight days of the 1929 session.

## Children's Gym Class Has Party

Instead of having their regular gymnastic class, the members of the Saturday morning children's gym class of the Y. W. had a kid party Saturday afternoon in the Y. M. gymnasium.

After play games, there was an impromptu program given by members of the class. The program was as follows: Solo dance, Jane Shilton; Dutch dance, Jean Delillo; reading, Lena Silverman; dance, Doris Marvin and Margaret Breardon; reading, Martha Nell Shaffer.

Following the program there were refreshments. Margaret Breardon and Lena Silverman, members of the social committee aided in serving.

## Escaped Convict Is Recaptured In Philadelphia, Pa.

Prisoner Who Fled Ohio State With Pat McDermott Is Taken In Gun Fight

(International News Service)

PHILADELPHIA, April 8.—The irresistible desire to visit familiar scenes here was blamed today by William S. Healey, alias James A. Walton, escaped Ohio state convict, for his recapture here.

He is in the Hahnemann hospital under heavy guard suffering from bullet wounds received in a battle with police here Saturday night while Cleveland authorities are enroute to this city to return him to Ohio where he was serving a 12 to 25-year sentence for highway robbery.

Meanwhile police have rounded up 126 suspects, including one woman, in an attempt to locate the man who was with Healey when they battled the police. Healey has refused to name his companion.

Discovered walking along Logan Circle here with a friend, the shooting started when police attempted to seize the two men. In the melee Healey was shot down but his companion got away. The convict escaped from the Ohio penitentiary with four others, including Pat McDermott, player of "Don Mellett, Canton, O. publisher. All were recaptured shortly afterwards with the exception of Healey.

## Damage Suit For Injuries In Auto Accident On Trial

Case of Gertrude E. Campbell and Fred Campbell, her husband, against Dan V. Cunningham, for injuries received in an automobile accident on the Butler road, was taken up for trial before Judge Chambers this morning. The case was scheduled for last week, but could not be reached.

The case is a guest in which Mrs. Campbell was a guest in the Cunningham machine, the other members of the party being Mr. and Mrs. Dan Cunningham, Fred Flynn and Mrs. P. Flynn. They were coming from Pittsburgh to New Castle and were coming down a hill when Cunningham, in trying to pass another machine, skidded into a ditch. Mrs. Campbell was quite seriously injured and brings suit for damages. Her husband is also suing for damages for loss of her services on account of injuries.

## Institute Workers Have Busy Times

Two New Clubs Being Formed At South Side Institution

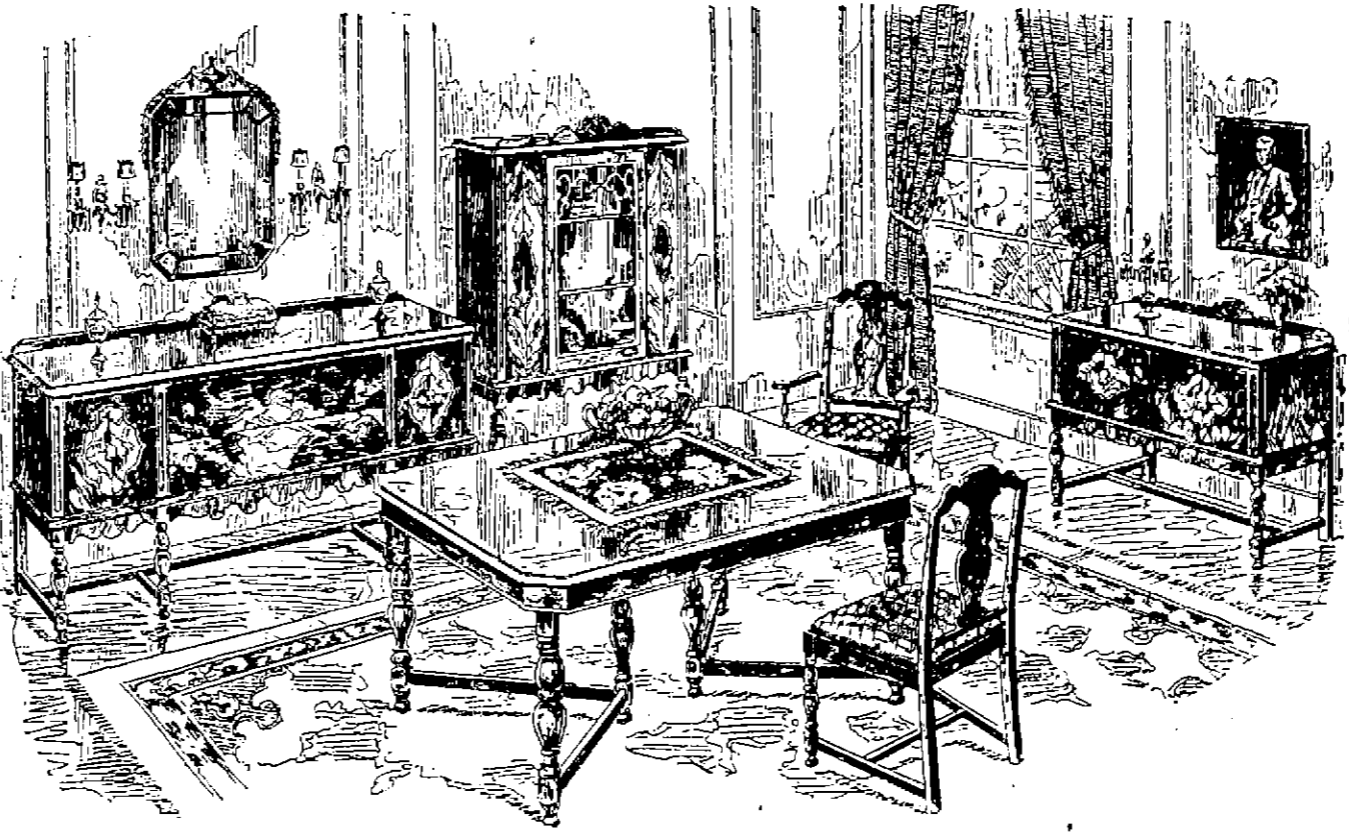

There are many activities at the present time at the International Institute for Foreign Women on Pennsylvania avenue. Two new clubs are being organized at the present. The Inter-National Institute Girl Reserves will hold a recognition ceremony at the Y. W. C. A. on April 19 at 7:30. The two new clubs have practically the same name but the organizations differ in nationality. One is the Polish Mothers' Club which held their first meeting on last Thursday. This club's aim is to give the Polish Mothers some recreation. The next meeting will be held in the Institute home on Pennsylvania avenue, on May 2. Officers will also be elected consisting of all nationalities. This club will hold their first meeting on next Thursday evening at the institute home. The institute home down on the South Side which is under the following three women, Miss Emma Moore, Miss Antonette Barbanil, and Miss W. J. N. Sroczynska is a busy place throughout the week with different clubs meeting there. The home at the present looks very neat, due to the beautiful flowers of many varieties which have been donated by different organizations of the city and some citizens. The home is situated about one half a block from the corner of Long avenue.

## Officiates At His Father's Wedding

LEBANON, Pa., April 8.—Not every man in the state can marry his own father, but Raymond C. Miller of Jonestown, near here, did recently. Miller is a minister and in that capacity performed the ceremony when his father, Harvey D. Miller, 52, was married to Miss Eve Schwarz, 32, also of Jonestown. Miller's first wife, the mother of Raymond, died in 1927.

# Are You Paying for Frew Furniture And Not Getting It--

—many people do  
Simply because they buy credit and not Furniture. There is but one way to buy anything, whether it be a home, a car, or furniture... that is to pay cash for it. That way is best because the cash price is always the lowest price for which an article can be bought.  
When you buy furniture think about that. Most of us cannot pay spot cash for the many important things needed in our homes. That is no reflection upon us. Neither should it expose us to the penalty of paying too much for what we buy merely to secure credit.  
Any store who sells on the "Dollar Down Scheme" etc., must of necessity receive a higher margin of profit. We can get nothing in this world without paying for it. Neither can you get ridiculous credit terms without paying a premium price.  
Many people are paying for Frew Furniture and not getting it simply because they do not understand the "Liberal Frew Budget System". Frews credit terms are the most liberal possible without necessitating increased prices. You may secure up to 100 weeks to pay at Frews.

## A Frew 8 pc. Dining Room Suite at

AMERICAN WALNUT.  
BURL WALNUT FACING.  
BANQUET TABLE (40x60).  
5 CUSHION SEATED CHAIRS.  
1 CUSHION ARM CHAIR.  
66 INCH BUFFET.  
(\$184)

This 8 piece Dining Room suite has been selected for advertising because it is NEW... and because the Burl Walnut facing is so very beautiful. All drawers in this suite are dust proof. The divided silverware drawer is velvet lined. The chairs are cushioned seated. The construction is of Frew quality throughout.

## Judge All Anniversary Values by These

It is our plan to present in advertising from day to day throughout this Frew Anniversary Month not leader items, but items of Frew quality that typify the values obtainable on all furniture, rugs, etc. during April. While many claims are laid to the doubtful honor of LOWEST PRICES one store in New Castle is recognized for the excellence and completeness of its Furniture stocks... and it is seldom that Frew's lay claim to the LOWEST PRICES, yet during this Anniversary Event people in appreciable numbers have been telling us how low our prices really are in comparison.

9x12 Axminster Rugs ..... \$38.00  
Fifty-Eight Thick Pile Axminster Rugs of the usual \$48 quality have been priced at \$38 during April. This selection of Bed Room Rugs includes only new patterns in a varied and wide assortment of colorings and designs.

Triple Buffet Mirrors ..... \$7.00  
These triple section plated glass Buffet Mirrors are 48 inches by 14 inches. And only because April is 31st Anniversary Month at Frews are these \$12 Mirrors priced down to \$7.00.

**Frew's Interior Decorating Service**  
It is just as cheap to furnish a home or a room in good taste as it is in poor taste. Beauty in the home is a question of judgment, not dollars. Frews are the only store in New Castle who render an interior decorating service. This service is free. If you will but telephone we would be pleased to have a member of our Decorating Staff call. Show her the room or rooms you wish redecorated, state the amount you wish to spend, then in a day or two in the Frew Store we will arrange many settings within your budget. This service costs you nothing, nor will it obligate you in any way.

**See Frew's Anniversary Windows**  
See the Frew Anniversary windows, see portrayed in them typical anniversary values. Each day a new window will be decorated in an endeavor to show you the many new things procured especially for the 31st Frew Anniversary.

## Frew's Sell Furniture, Rugs, Etc.

The Frew Company is in the Furniture business, and does not sell birds, coffee, silverware or dishes. We often have wondered if the public realizes the reflex action of the so called "leaders", items sold at cost or below. If certain items are sold at cost or less than it of necessity follows that excessive mark-ups must be gotten on other times. Did you ever notice that the things that really make your home are never sold at no profit. Frew's prices are always constantly lowest because they do not use leaders.

## PLEASANT RELIEF FROM CONSTIPATION

Shoulders droop under weight of years. Young, yet beauty has fled. Cheeks are sallow and drawn. Un-sightly pimples. Keep your system clean and you keep the beauty of youth. Its energy, its irresistible charm. Then life is not a failure. Clogged bowels and inactive liver cause poisons to seep through the system. Health vanishes and with it beauty and energy. Dr. Edwards' Olive Tablets will save you from this dark hour. For 20 years they have been prescribed in place of calomel to men and women seeking health and freedom from constipation. They act easily and smoothly. No dangerous griping. Take nightly before retiring. Results will amaze you. Thousands of men and women would never be without Dr. Edwards' Olive Tablets, a vegetable compound mixed with olive oil. Know them by their olive color. 15c, 30c, 60c.

## Announce Second Member Meeting Of Local C. Of C.

W. R. Cox, General Traffic Manager Of Pennsylvania Railroad, Will Speak

MEETING WILL OCCUR MAY 16

Announcement is made by Ira M. Ramsey, president of the New Castle Chamber of Commerce of the second membership meeting of the organization, which will occur at The Castleton on May 16. W. R. Cox, general traffic manager of the Pennsylvania railroad, will be the main speaker at this meeting, which will include the entire membership personnel.

This is the second of a series of membership meetings of the local Chamber of Commerce, which will occur here this spring. The first meeting occurred some weeks ago, at which time Colvin B. Brown, representative of the United States Chamber of Commerce, was principal speaker.

The New Castle organization is planning a series of these meetings in order that their entire membership may convene for a get-together session. The Red Arrow quartet of the Pennsylvania railroad will also be a feature at the meeting and will furnish all of the musical program.

The affair will start off with a dinner which will occur at 6:30 o'clock in The Castleton ballroom.

## Superior Court Starts Session At Pittsburgh

(International News Service) PITTSBURGH, April 8.—Arguments in a number of cases were being heard here today by the Superior court, which began its Pittsburgh sitting this morning. There are an unusually large number of cases before the court.

Suits from the lower courts in Allegheny, Armstrong, Clarion, Crawford, Erie, Forest, Greene, Indiana, Jefferson, Mercer, Somerset, Venango and Warren counties are scheduled to be argued.

## Suspect Arrested In Murder Case

On April first, two colored hoboes on a Baltimore and Ohio train, shot and killed baggage master, Frank Nungester, at Lima, O. This morning Carl Wright, and A. E. Lowers of the B. and O. detective force, picked up a colored man near New Castle Junction, who appears to answer the description of one of the Negroes, as sent out at the time of the murder. The negro was placed in the Lawrence county jail and a message was sent by Deputy Sheriff William Reynolds to the Lima officials to come over and see if they can identify the Negro.

## Cannot Lay Off And Draw Money

Pay To Continue For Month Only In Time Of Illness

Members of city council today took action, four to one, whereby members of departments, not on an hourly rate, can only draw pay one month during illness. After being ill a month the pay will stop unless the employee reports for duty.

When the solons convened in city hall the city clerk read a resolution to the foregoing effect and asked: "Who will introduce it?" The sponsor of the resolution was not made known.

"I'll introduce it," answered Reeves. The vote found Tyler voting "No," probably for the reason that employees in other departments lose their pay as soon as they report ill.

Reeves explained that as soon as employees in his department lay off they are immediately cut from the payroll.

## Mystery Seen In Reported Finding Of Murdered Girl

Boy Finds Girl Slain, Body Cannot Be Found By Officials Two Days Later

(International News Service) McKEESPORT, Pa., April 8.—The discovery of the mutilated body of a girl in a sack near Bettis Field airport was reported to county detectives today.

The body has disappeared, the same report states.

Mystery enveloped the first report of the possible murder, and Detective Chief George W. Murren, before accepting the report as genuine, awaited the result of an investigation by county sleuths.

A 15-year-old boy, son of a foreigner employed by the McKeesport Tin Plate company at Portvue, was the source of the report. He told his father that while he and another boy were gathering junk near the railroad tracks in back of Bettis Field they came upon the mutilated body of a girl about 15 years old.

The boy said that when he told the man for whom he was working of the discovery he was warned not to say anything about it.

That was on Friday. On Sunday the boy told his father, and the report eventually reached the county detectives. The father said that he visited the spot where his son reported finding the body and that he found only what appeared to be blood stains.

## South Diamond Way To Be Attended To

Wetly Rush and Louis Specht today appeared before city council and told solons that South Diamond way is in need of cleaning. In fact they said the way had not been cleaned in two years and declared several inches of mud had collected there.

Councilman C. H. Reeves, superintendent of the department of streets, said he had instructed the department commissioner to have the thoroughfare cleaned. Councilman Davies supported Reeves' statement.

Reeves promised that the thoroughfare would be cleaned today.

## Bessemer Teachers Will Meet Tuesday

## An Expert Speaks

Seating Arrangement For Capital Dinners Up To Stimson, Social Arbiter Declares

Left, Mrs. Edward E. Gann; right, Mrs. Emily Post and Vice President Curtis.

By BONITA WITT  
Staff Writer for Central Press and New Castle News

WASHINGTON, April 8.—Ever since Vice President Charles Curtis ascended the state department by personally requesting that his sister and official hostess, Mrs. Edward E. Gann, be given equal rating with him on dinner party seating lists given out by them, Washington hostesses have been seriously upset.

Should they risk the vice president's displeasure by seating his sister below the foreign ambassadors and ministers, as decreed by Secretary of State Frank B. Kellogg before he retired, or accord her the same rating extended the wife of the vice president?

An Authority Speaks

Now to add to the distress of the official matrons came fearful words from the lips of Mrs. Emily Post, arbiter of social etiquette, who declares it is "social death" to blunder in the important matter of arranging place cards at a dinner party in Washington.

She further asserts that precedence, "the bane of the Washington hostesses," is as "difficult as a cryptogram" to solve.

Wherever the Hoovers are being entertained, they naturally are the guests of honor except in event that visiting foreign sovereigns or presidents are present. Then comes the vice president, followed by the various ambassadors in the order that they have been appointed to Washington. Then the chief justice. If the president is present the vice president is seated below the chief justice. Next in succession are the speaker of the house, associate justices of the supreme court, the secretary of state and the foreign ministers plenipotentiary. These are followed by the members of the cabinet and so on down the list.

State Department Final

But even Mrs. Post, authority on all things social, admits her list is purely only approximate and that the state department must be consulted in all most instances lest some tragic mistake be made.

Washington is especially exercised over the case of Dolly Curtis Gann, because the vice president is the chief "diner out" of the administration. It is his duty to relieve the president of social obligations, and few are the nights in the month that he is

neither entertaining nor being entertained.

Even before the inauguration Mrs. Gann's social rating was the target for attack. The Senate Ladies Luncheon club, an informal group, refused to elect her its president and tendered the honor to Mrs. George H. Moses, wife of the senator from New Hampshire, ruling that only the wife of a vice president was eligible for the office.

So while Secretary of State Henry L. Stimson and his experts on social usage ponder the request of the vice president the agitated matrons are spending anxious moments over their dinner lists lest they, inadvertently commit "social death."

## Senior Hi-Y Club Meets This Evening

Members of the New Castle senior high school Hi-Y club and members of the East Brook high school Hi-Y club will have a joint dinner meeting this evening at the Y. M. C. A. at seven o'clock. George Anderson of the local club will be in charge of the meeting.

A short program will occur along with the regular business and devotional period.

## Opinion Of Court In Bank's Favor

Judge Hildebrand Refuses Petition Of Plaintiff For Judgment In Case

In the case of Walter J. Bird, trading as the Associated Ad. Service, against the First National Bank of Ellwood City, Judge R. L. Hildebrand of the county court handed down an opinion today in which he refused a motion of the plaintiff for judgment for want of a sufficient affidavit of defense.

The case was one in which the bank had contracted with the service for advertisements to be thrown upon the screen at three theaters in Ellwood City. There were three contracts, to run 32 weeks, and the payments were three, four and five dollars per week on the different contracts.

The bank admitted the contract, but claimed that the defendants had advertised that the bank paid four per cent in place of three per cent, and that this advertisement was persisted in for three weeks after notice had been given that it was wrong.

The bank also alleged that Walter J. Bird was not named in the contract made with it, the name being Associated Ad. Service. It is contended that the company had not complied with the act of assembly of 1921, requiring that firms doing business under a fictitious name should register such name, and the owners of the company. For these reasons the bank refused to go on with the contract.

## Harmony Company Must Repair Bridge Near Ellwood City

BUTLER Pa., April 8.—The Pittsburgh, Harmony, Butler and New Castle Railway company lost a case that has been pending in the Butler county court for more than a year. Judge James M. Galbreath ruled that the company must pay for the maintenance of the Allen bridge on the Zellenople-Ellwood City road.

More than 20 years ago the traction company was granted the right to run its tracks over the bridge with the provision that the bridge should be kept in good repair by painting and otherwise and be responsible for its complete maintenance.

In addition to giving the bridge a complete repainting Judge Galbreath ruled that the traction company must install an electric signal bell at the western end of the bridge—a requirement which was included in the contract made with the company 20 years ago. The company will also be required to lower its rails over the bridge.

## Star Of Gay Paree Praises Golf Course And "The Castleton"

Declares Both Are Equal To Similar Institutions To Be Found Anywhere

Carloads Of Scenery Being Hauled Into Cathedral Back Stage

Charles "Chic" Sale, who is the star of "Gay Paree", which shows tonight at The Cathedral, is known among his friends as a real fellow, and a representative of The News found him so when he visited him in his room in The Castleton late this morning.

"Sure thing, come right up," he said over the phone when we asked if we might come up and have a little chat with him.

We found him in the midst of a quick change from his golfing togs to street clothes. He was getting ready to attend the Rotary club luncheon at The Castleton. By the way, he is a member of this organization as well as a great many others, and he gets a real kick out of dropping into such places incognito, if he can.

Real Golf Course.

"You folks have a real golf course here," he began. "Next to my work, I like golfing better than anything else and it helps keep me fit. I'll venture to say half your people who use the fine course at the Feld club don't appreciate what a really good links you have here. I've enjoyed myself immensely this morning."

"One of the things I like to do is to tramp over a public course and mix with the people who use it, without them finding out who I am. I've played with bootleggers, and preachers, and clerks and mechanics, and had more fun than if I were with a gang of millionaires. When people don't know who you are, you don't have to be on your guard and your game is not spoiled by the deference they feel they ought to show you."

By this time "Chic" had reached the stage of donning his shirt and collar.

"How do you like our stage at The Cathedral?" we asked.

"Gosh, I haven't even seen it," he exclaimed. "That's one thing that bothers me less than anything else. Generally I don't begin asking where the theater is until about 8 o'clock. I know I'll get there somehow. I'm too busy enjoying life to give it that much thought."

"One thing I don't give a whoop about is night life," he continued. "A fellow in my business has to look out for his health and you can't give your best to your work if you are burning the candle at both ends. I believe in getting plenty of sleep and plenty of exercise, and I believe it pays."

Carloads of Scenery.

And while "Chic" was out playing golf this morning an army of workmen were busy at The Cathedral getting in the scenery, carloads of scenery and putting it in place, placing the wardrobe trunks in the rooms which had been assigned to the various actors, and making things ready for the show tonight.

It is big business with a production like "Gay Paree", and it is surprising the amount of scenery and costumes that are carried.

The girls in the cast were on hand seeing that their costumes were in the right place all ready for them to don this evening. They were gossiping back and forth and commenting on the fine arrangements of the Cathedral. They didn't expect to find anything like it here and they were amazed.

Eventually, he believes that the talking picture will supplant the stage productions and the movies. It certainly is great stuff. "I took a screen test five years ago and I was tremendously impressed with the result, although the talking picture had not yet been placed before the public," he said. "I went home and told my wife that there was the coming thing, and it begins to look that way."

Mr. Sale paid a fine tribute to The Castleton as we were going down in the elevator. "This is a real hotel you have here, just as nice as you'll find in any big city in the country. In fact, I want to say that I have enjoyed being in New Castle very much."

## Find Son Of Man Who Aided Carnegie

(International News Service) PITTSBURGH, April 8.—A. C. Klonan, 79, the son of the man who started Andrew Carnegie on his career as the world's steelmaster, was found dead today in a rooming house here—virtually penniless.

Klonan's father, Andrew Klonan, was Carnegie's first partner in the steel industry. The two had differences, according to old timers here, and Klonan senior broke away from Carnegie and started in business alone. Death cut short his plans, however, and his erstwhile partner forged ahead to wealth.

## Sinclair Loses His Appeal To Escape Sentence

Supreme Court Rules That Sinclair Must Serve Ninety Day Sentence In Jail

CASE HARD FOUGHT IN ALL COURTS

(International News Service) WASHINGTON, April 8.—Harry F. Sinclair, millionaire oil magnate, today lost a fight in the supreme court to escape a ninety-day jail sentence imposed for refusal to answer questions of the Senate Public Lands committee during the Teapot Dome investigation.

The case was fought through two courts before reaching the supreme court. Sinclair was found guilty by a jury in the District of Columbia supreme court. In addition to the three months jail sentence he was fined \$500.

The circuit court of appeals was unable to decide the questions of law and certified the case to the high court.

The indictment grew out of a session of the Senate Public Lands committee on March 22, 1924. Sinclair declined to answer any questions on advice of counsel.

He contended in the trial that the senate committee was abusing its power to compel testimony to aid in legislation, and was engaged in a judicial inquiry to obtain evidence for use in criminal cases.

Sinclair at that time was under fire for the Teapot Dome oil lease.

## New Castle Officers Capture Stolen Car

Apprehend Thief And Car On The Youngstown Road West Of City

A call was received from the Warren, O. county jail about noon Sunday by the local police to the effect that a Chevrolet sedan, bearing Ohio license 897-902 had been stolen from in front of the First Christian church of that city and that the thief, dressed in a sailor uniform, was enroute to this city by way of New Bedford.

Detective Logan and Officer Charles Longstreth answered the call and about an hour later succeeded in running down the thief near Parkers town corners after an exciting chase, as the thief was going at a high rate of speed.

The man driving the car when arrested gave the name of Robert Colburn, 3229 Liberty avenue, Pittsburgh, Pa. He admitted to the theft of the car and also waived his rights of extradition and returned to Warren, O. with Deputy Sheriff J. O. O'Rourke of Trumbull county and the owner of the car later Sunday. He was but 18 years of age.

## Dr. Blackwood Rotary Speaker

Tells Of Conditions In City Of Vienna; Guests In Attendance

Dr. James Blackwood, local physician, who for some time has been engaged in medical work at the American Medical association's headquarters in the city of Vienna, spoke to the New Castle Rotary club today.

Dr. Blackwood explained the work of the American association and told an interesting story of the customs, languages and general conditions that exist in and around that city today.

Vienna is the largest medical center of the world. The American association has operated its work most successfully since its inception, except during the four years of the World war. Vienna has the best kept streets, water supplies and other things; there are two principal political parties, the Christian socialists and the social democrats. Dr. Blackwood also told the Rotarians of the tax systems and the wages that native Viennians get.

Guests present at today's session of Rotary were Fred Lind, Kittanning; Harry Clark, Ellwood City, and Chic Sale of Scarsdale, N. Y. A. E. Martin, cartoonist here on a mission for The New Castle News, was also in attendance as a guest.

**Special Services In Mahoning M. E. Concluded Sunday**

**Revival Services Conducted Three Weeks; Other News Of Seventh Ward**

The evangelistic services conducted the past three weeks in the Mahoning Methodist church came to an end with the church services on Sunday. Rev. David Daye Sleppy, pastor of the church, was his own evangelist preaching at the special services each evening during the past three weeks. Fine services were conducted on Sunday with Rev. Sleppy preaching evangelistic sermons at both the morning and evening services. At the morning service three adult members were taken into the church. Special music was a feature at both church services.

A pleasing part of the service Sunday evening was the whistling of three hymns by Jerry Evans of Chicago, Ill. Mr. Evans is a fine whistler and upon request whistled three hymns, "Abide With Me," "In The Garden," and "Face To Face." This added feature was very much enjoyed by the audience.

**Local Merchants Upheld By Court**

**Opinion Of Judge Hildebrand In Art Works Case In Favor Of Handy Service Stores**

More than 20 home merchants of New Castle are interested in an opinion rendered by Judge Hildebrand today in the case of the American Art Works against W. M. Alexander, D. C. Seamons and others, doing business as the Handy Service stores.

The case is one in which an order for calendars for the Handy Service stores was executed by W. M. McClelland, as advertising manager for the stores. The bill was not paid and suit was brought by the art works corporation against individual owners of handy stores and the same as a partnership.

The store owners claimed that they had not ordered the calendars and that the Handy Service stores is not a partnership, but that the name is merely a trade name for advertising by the New Castle Retail Grocers association. Each of the store owners filed affidavits of defense in which the facts as set forth above were given. They also claimed that they did not accept the calendars and were not obligated to pay for them.

The Art Works corporation asked for judgment and this is refused in the opinion of Judge Hildebrand.

**Poultry Raisers Are Meeting Today**

**First Of Three Meetings Occurring At F. B. Chapin Farm This Afternoon**

## Wolgast And Davies To Furnish Thrills

Fistic Sharps Of Country  
Keeping Eyes On  
Jolly Bowl

FIRPO STOPS RED  
RILEY IN ROUND

One week from tonight and the Midget Wolgast-Willie Davies five-weight battle will be staged at the Jolly bowl and fistic sharps from all parts of the country are casting eyes toward New Castle as Davies and Wolgast hope to draw attractive bouts this summer with Izzy Schwartz, Frankie Gonzo and perhaps the best flyweight in the world, Spider Plander of France.

The fans in the tri-state district have been aching to see Davies and Wolgast in action against each other for a year and with good weather promised and the fighters in hard training again a sensational battle should be staged here.

Davies has been hopping through the traces at Charleston and Wolgast resumed training Wednesday and to show the fans that he is in good condition will arrive here Wednesday to complete his training.

**Bride Coming.**  
Along with him will come his bride, Manager Johnny Keyes and Long Sing Que, the champion. They are coming here as the guests of the Jolly bowl and fistic sharps. Long Sing Que will visit the various Chinamen of New Castle.

Henry Firpo, the partially bald-headed middleweight of Louisville, made short work of Red Riley at Oil City a few nights ago. In fact, in less than one minute he had rolled Riley and the bout was over. By actual count the Oil City show lasted 13 minutes.

Riley hails from Oil City and his real work as a fighter is not known. Dick Evans had been scheduled against the boy from Louisville but for some reason Riley was substituted and the fans didn't get much of a chance to see Firpo.

**Fighters Are Busy.**  
Jimmy Dunn has his stable lined up pretty good for April. His card follows:

Firpo vs. Palmio, Columbus, April 8; Firpo vs. Jerry McCarthy, Zanesville, April 14; Firpo vs. unnamed opponent, Cleveland, April 23. Joey Goodman vs. Howard Mitchell, Cincinnati, April 7; Goodman vs. Jimmie Bordie, Cleveland, April 9; Goodman vs. unnamed foe, Cleveland, April 23, and at Detroit April 29.

Johnny Datto takes on Mike O'Dowd, Toledo, April 10; Datto vs. Vic Burns, Detroit, April 19, and Mickey Dugan battles Danny Billick, Pittsburgh, April 8. Louis de Arco meets Howard Mitchell, Columbus, April 3, and Dick O'Leary fights at Detroit April 19.

## Amateur Boxers Ready For Meet In Boston Ring

(International News Service)  
BOSTON, April 8.—With an entry list of 115 "Simon pure" champions and near champions from all sections of the country the annual national A. A. U. boxing championships get under way for a three-day tournament at the Boston arena tonight.

All the recent winners of sectional titles were to participate. Of the winners in the eight classes last year only one, Steve Holako of Buffalo, N. Y., in the 134-pound division, was again entered. The heavyweight crop this year is by far the most promising of the past few seasons. It includes Frank Norvak of Pittsburgh and Elmer Howard of Philadelphia.

## American Professional Golfers To Fight For British Championship

Hagen, Farrell, Smith, Prominent Members Of American Golfing Team

Whether Or Not Horton Smith Plays Sensational Game Is Matter Of Doubt

By DAVIS J. WALSH  
Special Editor, International News Service  
NEW YORK, April 8.—Horton Smith may be the man of the hour in competitive golf, but it is altogether possible that he will be just another Smith in the city directory after they bring in the final returns from the British open championship if you care for a dispassionate diagnosis furnished by fellow members of the Ryder Cup team today. He has the honors, they concede. But it seems that he may not have the clubs. Smith, they say, is something less than extraordinary when he uses the hickory shafts demanded by British convention—and maybe I mean prejudice.

His implied lack of efficiency with hickory, I suspect, is largely a matter of orientation. Give a golfer like Smith plenty of time and no doubt he will play you a very nice shot with an umbrella handle. It just happens that he has less time right now than a man en route down an elevator shaft without the elevator.

The team sails for England on Wednesday and they tell me that Smith has played only once with all-hickory clubs. That once, it appears, was away too often. He finished in a desperate fight for 13th place at Belvoir and thereupon decided that the next time he played with hickory would be when he had to.

During an otherwise miraculous winter season this was the only tournament in which Smith looked like any other Smith. He is a confirmed addict of steel shafts and the attempted transition to hickory apparently played pranks with his timing. The difference between the feel of hickory and steel, and even the difference between hickory and the

combination hickory and bamboo, of which American wood shafts are made, can best be illustrated by saying the one cannot "sense" the head of the club so well when all-hickory is in use. Johnny Farrell, the national open champion, had an indifferent winter season and he is said to attribute his showing to the fact that he was using all-hickory in preparation for the British event and couldn't seem to get the feel of his clubs.

**Farrell Troubled**  
If it took Farrell all winter to get nowhere with hickory, it would appear to be possible for Horton Smith to arrive approximately at the same place in the few weeks at his disposal.

Of course, when one is in Rome, as they say, one is under obligation to follow traffic, and naturally England's golf code is its own to do with. It is fair to point out that an Englishman can bring his clubs to our championships without finding it necessary either to undergo the blindfold test or to furnish a letter of recommendation from his pastor. But, then, we seem to need no technical aid in preserving our prestige in golf.

## Texas Team Wins Schoolboy Title In Chicago Games

Athens High Of Athens, Texas, Captures National Schoolboy Crown Saturday

(International News Service)  
CHICAGO, April 8.—The champion high school basketball team of the United States today was enroute to Athens, Tex., to receive the plaudits of the homefolks and the entire citizenry of the Lone Star state.

The young giant rangers from the little Athens high school clinched the coveted national title Saturday night when they triumphed over Classen high of Oklahoma City in the final game of the annual tournament at the University of Chicago. The score was 25 to 21.

Third and fourth places in the meet went to Jess, Colo., and Jackson, Mich., respectively. The boys from the Rocky Mountain hamlet won the place position by beating the Michigan state champion, 21 to 17. Forty teams from 32 states competed in the tournament.

## Young Smacks Win Ball Game, 14-13

The Young Smacks defeated the St. Joseph Nighthawks, 14 to 13, in a baseball game played Saturday afternoon at the Scioto street field. The Young Smacks won the game by scoring in the late innings.

The Young Smacks have the following in their line-up: A. Bshero, C. James, W. Joseph, C. Shofa, A. Nocera, G. Deep, J. Moses, E. Amott, D. Shiroza, P. Joseph, P. Bshero.

Any teams wanting games with the Young Smacks can arrange same by calling 1320-J and asking for "Dom."

## Ryantown Team To Practice Tonight

The Ryantown baseball team of the Lawrence county league will hold a workout tonight at the Sampson street field. The practice will be held at 8 o'clock. All players are asked to attend.

The Ryantown team, managed by Elmer Robinson, will be in the thick of the fight for the flag in the Lawrence county league this season. It is indicated.

## Cumberland, Md., Next Control For Bunion Derbyists

John Salo, Leader In Elapsed Time; Ed Gardner Is In Second Place

(International News Service)  
HANCOCK, Md., April 8.—With a 36-mile jog over the mountains facing them, C. C. Pyle's second cross-country derby runners left here today for Cumberland, Md. John Salo, 29-year-old, N. J. policeman, still holds the lead, his elapsed time being 44 hours, 25 minutes, 17 seconds.

The first 10 m elapsed time: John Salo, Passaic, N. J., 44:25:17; Ed Gardner, Seattle, Wash., 44:46:25; Peter Gavuz, England, 46:50:02; Arthur Newton, South Africa, 47:49:24.

## Is Wright Right?

By QUIN HALL

While it looked for a time as if most of the Brooklyn ballplayers would be holdout, Manager Wilbert Robinson finally got all his athletes together down at Clearwater, Florida, in time to give the club a little team work, together before they started North.

When your roving correspondent took a slant at the Robins, Dave Vance, who does a lot to make that old ball club, had just come to terms and Glenn Wright, the shortstop acquired from the Pirates in exchange for southpaw Jess Petty and infielder Harry Riconda, was still at Miami where he had gone to have Benesetter Ferguson patch up his shoulder.

Earlier in the Spring, it looked as if Barney Dreyfuss, the owner of the Pirates, had put over a fast one on Uncle Bobby and traded a star infielder with a dead arm for a couple of able-bodied fellows who still play baseball. There is still a question whether or not Wright is going to be as capable as he was two years ago. Last year, he fared badly and was finally benched. Dick Barto, taking his place in the infield at that time it was rumored that Glenn would not keep in condition and that he had thereby incurred the wrath of the officials at Pittsburgh. It was openly stated that it was Wright's last year with the Pirates and that he would be traded during the Winter.

The Glenn Wright of 1927 can help the Robins tremendously. Before Wright left Miami for Clearwater, Dr. Ferguson said that his patient was again in shape to play baseball. Max Carey, who had been sent to Miami as a sort of club representative, tossed the ball back and forth with Wright and said that the shortstop felt no pain, even at that early date, when he tossed the ball over or underhanded. A side-arm throw, however, still bothered him to some

extent. But the mere fact that Wright would be ready to step into line-up cheered Robby and the Robins plenty. In 1927 Glenn was rated one of the greatest shortstops in the game. Even if his power is cut in two, as a result of his bungled-up and repatched shoulder, Wright can get out here and still have it on some of the other fellows in the league who are holding down shortstop jobs.

When we saw the Robins at Clearwater there was still a possibility that Dave Bancroft would be retained and in that case Wright would be used at the hot corner. With Flowers at second and Bissonette covering the initial bag, this would give Robby a much better looking infield than the Brooklyn club has had in a long while.

Wright has been in the National League since 1924 and is only 27 years old. He was born at Archie, Mo., Feb. 6, 1902, and started his pro career with Kansas City in 1921. He became the regular shortstop with Pittsburgh the year he was purchased by the Pirates from Kansas City and up until last year made a great record with the club.

Glenn still has plenty of good baseball left in his system. He can hit and is rated a fast base runner. The Robins can use him to advantage and Robby particularly needs him to build up his infield. When the clubs start jockeying for position after the season opens, Brooklyn's standing is sure to depend a lot on how Wright is coming through. If he is the shortstop that he was two years ago, the Robins may be tough to beat. If not, Brooklyn may be just another one of those ball clubs, or something like it was last year.

The fans are pulling for Wright to have a great year because fandom in general has a lot of love for Uncle Robby.

## Kid Chocolate To Meet Bushy Graham In New York Friday

Fine New Fight Coliseum Will Be Opened To Public In New York Friday Night

NEW YORK, April 8.—The Bronx dedicates a new boxing center Friday night when the New York Coliseum will be opened to the public with appropriate ceremonies by Kid Chocolate and Bushy Graham.

Jess McMahon, veteran matchmaker, is the guiding spirit in the new venture. The New York Coliseum building was the exposition hall of the sesqui-centennial exhibition in Philadelphia and was transferred here in sections. It has a seating capacity of 18,000.

McMahon plans to compete with the Garden in the popular prize field, scaling from \$1 to \$5 for his first show. He can do a capacity of \$50,000.

Originally planned as a 15-round bout to establish a new line of bantam champions, the Chocolate-Graham affair has become a feather-weight feature with no particular bearing on any title. First the boxing commission turned thumbs down on the championship angle, and now Graham has abandoned the idea of making 118 pounds.

Chocolate intends to train down to 118 pounds, and if he wins will claim the title. However, he cannot hope for general recognition unless he also eliminates Fidel Labarba, former fly-weight champion, who is now campaigning brilliantly as a bantam.

## TRAINING CAMP 'BUNTS'

Baseball Teams In 'Big Show' Prepare For Season

NEW YORK, April 8.—The Washington Senators at Birmingham, Ala., today, are releasing some of their rookies. The Giants celebrated McGraw's fifty-eighth birthday yesterday by beating Memphis 6 to 5.

The New York Yankees were glad to leave Oklahoma City for Tulsa this morning, for the record crowd of 18,000 spectators who saw yesterday's game with the locals became so enthusiastic that they tore Babe Ruth's uniform to shreds, almost upset his automobile, and nearly wrecked the entire entourage of the world's champions in a wild and wool cushion fight. The battle royal started in the eighth inning when the fans in the stands, who wanted to see the Babe hit a homer, hurled cushions at the Hoi Polloi besleaving Ruth for autographs in right field. The Yanks won the ball game 13 to 5.

The Brooklyn Robins, crushed by two straight defeats at the hand of the Cleveland Indians in New Orleans, took on the Montgomery, Ala., club today. The Robins could do no business with Joe Shauts in yesterday's game, and the Indians won 5 to 1.

Before leaving Dallas yesterday, where the Pirates beat the Steers 5 to 4, Manager Bush announced the sale of Pitcher Walter Tauscher to

the Dallas Club. The Bucs are to resume their series with the Detroit Tigers in Shreveport today.

The Boston Braves were in Norfolk today for a three-day stay which will complete their 1928 spring training program. They will play a few games with the New Haven club as a final polishing test before taking the journey back to Boston.

Bill Carrigan's Boston Red Sox arrived in Richmond, Va., today for a series with the Reading team. The Sox came to Richmond from Norfolk where they cleaned up a series with the New Haven club.

The Cardinals started under an 8 to 3 defeat today handed them yesterday by Chattanooga at Chattanooga, Tennessee. Haley continued his fence busting by collecting his third home run in three days.

The masterful pitching of Alvin Crowder at Kansas City, Mo., yesterday enabled the Browns to defeat the Blues 8 to 1.

## City-County Group Prepare For This Season's Opening

Will Start Season On April 30 And Play Schedule Of Forty Games

At the meeting of the City-County Twilight Baseball League, held over the week-end, many matters of importance were considered. The rules and regulations governing the league were adopted.

The meeting was presided over by Edward Fritchard, the president, and owing to the fact that some of the other officials selected at a previous meeting found it impossible to serve, the election of the following officers was held: Alec Samuels, vice president; Cliff Roberts, secretary-treasurer; commissioners, H. K. Bell, chairman; Frank Waddington and Ed Sechler.

The adoption of the rules and regulations of the league was completed and provided that the franchise deposit should be \$10. One of the important rules adopted is that making it necessary to play five innings to constitute a game and seven innings the length of the regulation twilight game. The rules will be printed.

A schedule of 40 games for each team was presented by the schedule committee, Alec Samuels and Lew Glitch adopted. It leaves all holiday dates open, permitting the teams to meet other teams on those days. The split season will prevail and should there be different winners, they will play off for the championship of the league. The league opens April 30.

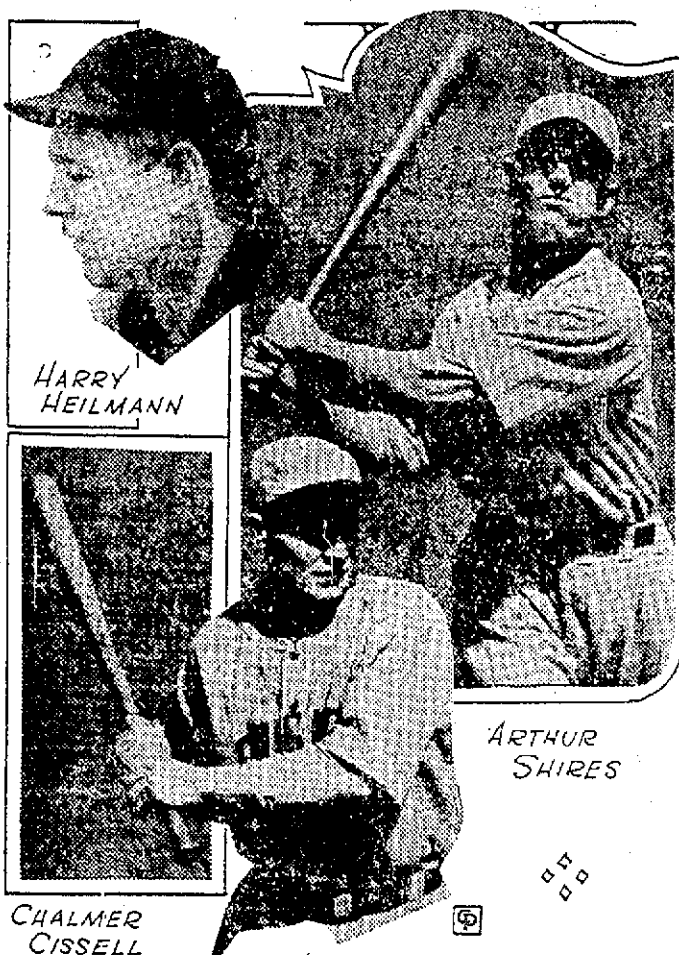

The Colored Stars were voted out because of non-interest and their franchise offered to the Boro A. C., who are seeking a berth in the league. The Boro A. C. will get in touch with Cliff Roberts, secretary, treasurer, 732 Oak street, Bell phone 1845-J, or in the morning or noon at the post office.

It was decided that all forfeits or franchise deposits must be in the hands of the treasurer by the next meeting, to be held Tuesday, April 18, at 7:30 o'clock in Danceland. It is also desired that all players' contracts be in at this meeting.

At this meeting, held over the week-end, Cliff Klingensmith represented the Cascade All-Stars, F. M. Stanley the Danceland team, Floyd Houk the Princeton team and Lew Glitch the East Brook team. Harlinsburg and Boro A. C. will have their representatives at the next meeting.

## BAD BOYS OF AMERICAN LEAGUE

Three little boys who—all unruly—have already threatened the chances of their teams in the American league race, are Chalmer Cissell and Art Shires, shortstop and first baseman of the White Sox, and Harry Heilmann, Detroit veteran. Disgruntled conditions on the White Sox team, revealed by the suspension of Cissell and Shires, appear of a more serious nature than the suspension of the two men in itself. Heilmann's failure to enter into the new spirit at Detroit, under Manager Bucky Harris, may or may not presage more unpleasantness there.

## Hoyt at the Plate

Waite Hoyt, Yankee pitching ace, is shown taking his licks at bat as he prepares for the opening of the big league season. Hoyt is evidently determined to boost his batting average this year.

## Hardest Hitter

The best hitter in the Big Ten last year was Arthur Mansfield, first baseman on the University of Wisconsin baseball team, who whaled the horsehide for a .438 average. There are also few athletes in the Western Conference with a better sock in his fists than Mansfield, who has been heavyweight boxing champion at the Madison institution for two years. Mansfield has declined several offers to turn professional in the ring, but is expected to be playing major league baseball before many more seasons.

## Cascade All-Stars Practice Tuesday

Fast Aggregation Of The City And County League Is After Pennant

At an important meeting of the Cascade All-Stars held recently at the home of Clifford Klingensmith plans for the coming baseball season were discussed and officers of the team elected.

The officers elected were E. Martin as captain; S. Bender, business manager and S. Shaffic, treasurer. Ben Price has been secured to coach and manage the team and his knowledge of and experience in the game should prove of great benefit to the team.

It is hoped and planned that the Cascade All-Stars shall be one of the strongest teams in the City-County league.

An important practice session will be held at the Frank Avenue grounds, Tuesday evening at 5:30 o'clock. The following players have been asked to be present: Martin, Bender, Hudson, Shaffic, Ryan, Kulich, Gettis, Reiter, Joe Lenhart, J. Hill, W. Hill, F. Neyman, J. Palmer, Ferry, Kelly, Isaacs, Mollie, A. Liversage and Ben Price.

Gota denies knowledge of the shooting.

BASEBALL TEAM WILL PRACTICE The Congregational church baseball team will meet at the Clifton Flats grounds for practice this evening at 5:30 o'clock.

# Government Agents Are Instructed In Procuring Warrants

Administrators Told To Im-  
press Upon Agents Strict  
Compliance

Rough Tactics By Dry Agents  
Will Be Severely Dealt  
With In Future

By ROBERT S. THORNBURGH  
International News Service Staff  
Correspondent

WASHINGTON, April 8.—President Hoover's indicated opposition to over-zealousness and "rough stuff" in prohibition enforcement has prompted the prohibition bureau to call the attention of administrators to the regulations and impress upon them the necessity of strict compliance.

Prohibition agents were warned that failure to comply "will subject the offending officer to disciplinary action or in aggravated cases, removal from the service."

More attention was directed to the obtaining and use of search warrants than to any other single subject and agents were told that "the principles that embody the essence of constitutional liberty and security forbid all invasion on the part of the government and its employees of the sanctity of a man's home and the privacy of his life."

Rules Are Given:  
Referring to securing search warrants the regulations provide:

"Officers should bear in mind that the decision to search one's home and property is to be reached upon the basis of fact and not rumor, suspicion, or guess work, and that one's home and place of business are not to be invaded forcibly and searched upon mere suspicion. An officer is not clothed with authority to violate the law.

Searches and seizure may legally be made with or without search warrants where an officer has well-founded reason to believe that a violation of the law is being committed.

The exception is provided in section 6 of the Willis Campbell act, making it a misdemeanor to search a private dwelling without a warrant. It also is an offense against federal law to maliciously or without probable cause to procure a search warrant, or to exercise it with unnecessary severity.

Courteous Bearing  
"An officer should at all times bear in mind that his official position requires him to maintain a courteous bearing," the regulations provide. "In discharging his duties he should endeavor to avoid unnecessary injuring or endangering the reputations of persons or concerns under investigation."

Persons must not be lured into violations of the law for the purpose of making prohibition cases, under the treasury code. Discussing the so-called "entrapment" the regulations pointed out "the first duties of officers of the law are to prevent, not to punish, crime and when the criminal design originates not with the accused but is conceived in the mind of the government officer, and the accused is by persuasion, deceitful representation, or inducement lured into the commission of a criminal act, the government is estopped from prosecution."

Referring to appearance of agents in courts the regulations say: "Tell the truth. No cause is important enough to the bureau, the government, or the people to justify deviation from the truth." Promiscuous use of firearms are prohibited.

## Fishing Club To Banquet April 10

Pennsylvania Fishing Club Will

## Some Federal Aid Highways Will Be Built

About Three And Half Millions  
In Federal Aid Road  
Fund For State

(Special To The News)  
WASHINGTON, D. C., April 8.—A balance of \$3,642,841.85 remains in the federal aid road fund for new projects in Pennsylvania, the bureau of public roads announced in reviewing the status of federal-aid road construction as of March first.

The report reveals that on the first day of March, a total of 2,016.9 miles of federal-aid highway had been completed in the Keystone State and that 197.3 were under construction to be completed at a cost of \$14,246,385.93. Of this amount, the federal government will pay \$2,288,753.63. In addition to the mileage under construction on March 1 a total of 27.4 additional miles of federal-aid roads had been approved for construction in the State on that date. This approved project will be completed at an estimated cost of \$1,523,036.22, of which \$451,753.91 will come

from the federal treasury, the public roads bureau states.

Pennsylvania ranked twelfth of the 48 states in the mileage of federal-aid highways constructed on March 1.

## Dr. Watkins Will Be New Head For School Of Girls

Dr. Mary Bidwell Breed, Leaving Position As Head Of  
Margaret Morrison  
School

(International News Service)  
PITTSBURGH, April 8.—Dr. Charles Watkins will succeed Dr. Mary Bidwell Breed as director of the Margaret Morrison Carnegie College. It was announced here today by Dr. Thomas S. Baker, president of the Carnegie Institute of Technology, simultaneously with the acceptance of Dr. Breed's resignation, effective at the end of the current college year. Dr. Watkins will hold the title of chairman of the faculty of the college. He has been a member of the faculty at Carnegie since 1915 and professor and head of the department of general science at Margaret Morrison Carnegie College since 1917. Miss Breed has no definite plans for the future, except to rest and devote some time to a program of writing that will be based upon her long experience as one of the country's foremost educators of women. She retires after 16 years of service as directing head of the Margaret Morrison Carnegie College. Dr. Breed is a native of Pittsburgh. Dr. Watkins is a native of Murfreesboro, Tenn.

## Thousand Aliens Arrive In State During Month

(Special To The News)  
WASHINGTON, D. C., April 8.—A total of 952 alien immigrants were admitted to the United States during February who informed federal officials they intend to become permanent residents of Pennsylvania, the commissioner general of immigration, Harry E. Hall, reports. During the same month, 352 aliens who had been living in Pennsylvania left the country.

The report states that from July to February inclusive, the population of Pennsylvania was increased by 10,940 alien immigrants who came into this country to settle in the Keystone state, and that the population of the state during the same period was decreased by 3,585 through the departure from the nation of that many aliens who had been residing in the state.

## To Give Lectures On Pilgrim's Progress

Rev. George M. Landis To Show  
Stereopticon Pictures At  
Gardner Chapel

Beginning tomorrow night and continuing for six Tuesday evenings, Geo. M. Landis, pastor of the First Baptist church, will give stereopticon lectures on Bunyan's Pilgrim's Progress, at the Gardner Chapel, near Gardner Stop on the Harmony Route. These

lectures will be illustrated by beautifully colored slides. The collection of nearly ninety slides was made by the celebrated Children's Evangelist, Alfred P. Gibbs, of Johannesburg, South Africa. Mr. Gibbs searched the libraries of England, Africa, and America for the best pictures illustrating Bunyan's immortal allegory. The lectures will begin at 7:30. The boys and girls are especially invited, although everybody will be welcomed.

And another peculiar thing is that the speaker with only ten minutes will take up nine of them explaining that the subject is too large and important to be handled in the brief space allotted to him.—The Nashville Banner.
